MINNESOTA GOVERNOR Karl F. Rolvaag and his wife Florence leave St. George Church in St. Paul after casting vote in Minnesota State primary election Tuesday. Rolvaag won handily over the Democratic-Farmer-Labor party endorsed candidate, A. M. Keith, who is the state's lieutenant governor. (AP Wirephoto)

Judge Orders Negro Children Be Protected

GRENADA, Miss. (AP) — Negro pupils return for their third day of classes at newly desegregated Grenada schools today with officials under orders from a federal judge to protect them against the violence of segregationist whites.

U.S. Dist. Judge Claude F. Clayton, a former Army general, issued the order Tuesday night at Oxford.

Atty. Gen. Nicholas Katzenbach had requested it to provide protection for the children. The Justice Department also asked for the order to provide for the arrest and prosecution of those who assault the Negro children.

Without the order, the department said, Grenada officials would continue "in their willful failure and refusal" to protect the Negro children and their parents.

Even as Judge Clayton held a hearing on the request for a temporary restraining order, Negroes were marching through Grenada streets Tuesday night. At the courthouse square they were peppered with rocks and bottles hurled by whites, who also used slingshots to propel lead fishing sinkers at the marchers.

Heavily armed state highway patrolmen, bolstered by a force of state game wardens, moved in and dispersed the whites. The state officers escorted the Negroes back to their starting point — a church seven blocks from the square.

Pickets Parade At Union's Hall

PADUCAH, Ky. (AP) — It was a switch indeed, pickets parading in front of headquarters of the laborers' union Tuesday.

A picket said the line was set up to protest work assignments made by union officials.

Thirty or more men declined to cross the picket line.

Weather

By The Associated Press

ESCANABA AND VICINITY — Mostly cloudy, windy and cooler today, high 62. Partly cloudy and cooler tonight, low 40. Thursday, partly sunny and unseasonably cool, high 58. Winds north to northeast (15 to 25 mph) diminishing tonight. Friday outlook: mostly cloudy, chance of showers. High yesterday, 72 and low overnight, 51. Precipitation probabilities: Today, 40%; tonight, 10%; Thursday, 5%.

Upper Peninsula — Partly cloudy and cooler this afternoon and tonight. Chance of light frost in western interior tonight. Thursday mostly sunny and continued cool. Low tonight 35 to 43, highs Thursday mostly in the 50s.

The sun sets today at 7:02 p. m., and rises Thursday at 6:26 a. m.

Dirksen Stands Firm: 'Rights' Bill In Trouble

WASHINGTON (AP) — Former President Harry S. Truman had this advice for shittish politicians: "If you can't stand the heat, get out of the kitchen."

Senate Republican Leader Everett M. Dirksen, however, obviously doesn't mind the heat from the White House on the civil rights controversy. And he isn't trying to escape the kitchen.

"I don't know where they get the idea I scare on issues of this kind," Dirksen said.

The Senate votes today on cloture — the means of shutting off debate and bringing the civil rights bill up for action. Without Dirksen's support there appeared virtually no chance the administration could get the two-thirds vote needed for cloture.

Dirksen made it plain he wasn't dropping his opposition to the measure: "I know of nobody under the canopy of bright blue sky who could say anything to me that would make me change my mind."

Dirksen said he plans to give the chief address against the measure in advance of the late afternoon vote.

On the speech, Dirksen said, "My attacks are polite. They are devastating but polite. I kill you but you don't feel it."

Today's vote is on a cloture petition filed by Senate Democratic leader Mike Mansfield to end a shadow filibuster which began when sponsors presented a motion to take up the bill a week ago.

Seaway Beats Expectations

DETROIT (AP) — Growth of traffic on the St. Lawrence Seaway has topped all predictions—even those of its greatest advocates, J. H. McCann, U. S. administrator of the St. Lawrence Development Corp., said Tuesday.

McCann spoke before the 55th annual convention of the American Association of Port Authorities in Detroit.

"My best advice is, don't try to outguess the St. Lawrence Seaway," he said. "You can't beat it — so join it."

McCann predicted at least 43 million tons of cargo will move via the seaway this year, compared with 43.4 million tons last year, 39.3 million tons in 1963 and only 20.3 million tons in 1960.

He conceded the seaway is about \$9 million behind in scheduled repayments of costs, but said the seaway had paid the U. S. Treasury \$20 million through 1965.

"We'll be at \$0 million tons in the next year or so," he predicted, however, "then 70 million tons in the 1970s."

He said the United States shipped 8.1 million tons of agricultural products and Canada 9.5 million through the seaway last year.

This is the first year that all seaway ports have been dredged to a 27-foot depth.

Lewis Walter, of Sea-Land Service Inc., told the convention Tuesday that continued growth of the American shipping industry lies with the greater use of containers in shipping.

Many a man with no family tree has succeeded because he branched out for himself.

Youth Beat

Youth Beat, a news and notes column for teenagers, begins Friday in the Escanaba Daily Press.

The national report on what's happening, Youth Beat provides information on fashions, fads, music, sports and hobbies, schools and colleges. The column is written by Ralph Hartell, veteran newsman and experienced teen counselor and teacher.

Watch for Youth Beat Friday.

Church Bus Crash Kills 1, 17 Hurt

SANFORD, Fla. (AP) — A collision between a church kindergarten bus and an automobile Tuesday night killed Bradley Spence, 4, and injured 17 other persons.

Admitted to Seminole Memorial Hospital in fair condition were the Rev. J. Blair McGarvey, 32, pastor of the Sanford Alliance Church and driver of the bus; and five of his young passengers.

The other children were treated for cuts and bruises and sent home. The lone occupant of the car was not injured.

Boiler Blast On Freighter Lehig Injures Seaman

GRAND MARAIS (AP) — A boiler room explosion in the freighter Lehig seriously injured one seaman today in Lake Superior.

The Coast Guard, which reported to explosion and injury,

City Income Tax

FERNDALE (AP) — City Manager William Little has recommended that Ferndale enact a one per cent income tax, similar to those existing in neighboring Detroit, Hamtramck and Highland Park. Mayor Bruce D. Garbutt, expressing favor for such a levy, said public hearing would be conducted prior to a city commission vote.

Astronauts Soar To Record Height Today

Republicans To Point Way For Spending Cuts

WASHINGTON (AP) — Republicans are working on a budget aimed at showing that President Johnson can cut federal spending by \$4.7 billion instead of the \$3 billion he proposed in his anti-inflation program.

Senate Republican Leader Everett M. Dirksen disclosed this Tuesday, forecasting the Republican Policy Coordinating Committee will lay down a detailed budget at an Oct. 3 meeting. At about the same time, the government issued a report indicating housewives are having a tougher time stretching their dollars at the supermarket.

The Labor Department said wholesale food prices rose 1.3 per cent in August. Retail figures for August will be announced later this month and are expected also to show some increase.

The wholesale price index, which includes industrial materials and goods as well as farm products and processed foods, rose four-tenths of 1 per cent in August, the department said.

Also on the inflation front, Republican members of the House Ways and Means Committee challenged administration claims of a "first slice" \$1.5-billion budget cut as part of Johnson's anti-inflation program.

Larson Vote Wasn't Easy

PHOENIX, Ariz. (AP) — Al Larson voted in Arizona's primary election Tuesday but . . .

Larson was working at a sports auto track about 30 miles northwest of Phoenix when flood waters from heavy rain rushed several feet deep through a wash, cutting off his only exit.

Larson telephoned his son in a phone-equipped car, and an airplane was sent. Larson's wife picked him up in a car at the airport and drove him to the polls.

The polling place was a church across the street from Larson's home.

Michigan Bishop Pike Successor

SAN FRANCISCO (AP) — The Episcopal Diocese of California elected a new bishop today—the Rt. Rev. C. Kilmer Myers of Michigan, who is credited with starting urban work within the church.

In hotly contested balloting, the suffragan bishop was picked to succeed the controversial Rt. Rev. James A. Pike, who resigned to become theologian in residence at the Center for the Study of Democratic Institutions at Santa Barbara.

Bishop Myers, who studied with Bishop Pike at the General Theological Seminary in New York, started urban work in Jersey City, N. J., in the late 1940s, then did social-religious work in New York City.

He has taken part in civil rights demonstrations, including one at Selma, Ala.

After he was elected on the

Lake Fill Hearing Set For Sept. 26

CHICAGO (AP) — Army Engineers announced Tuesday they will hold public hearings in Valparaiso, Ind., Sept. 26 on a controversial permit to fill in 33.5 acres of Lake Michigan.

The Corps of Engineers has suspended a federal permit which would have allowed Bethlehem Steel Corp. to fill in the acreage in the Indiana dunes area.

Conservationists denounced the permit, saying it would spoil planned recreation areas and accelerate lake water pollution.

The permit was granted Aug. 23 and suspended last Saturday.

CAB DRIVER John Kwan, is given first aid by a police officer after he was shot twice early Tuesday by a woman gunslinger who commandeered his cab after shooting a narcotics suspect as the man left a downtown Toronto tavern. Kwan was in serious condition with wounds to the leg and head. (CP Wirephoto)

Cong Nab US Soldier In Daring Motor Pool Raid: Blast 52 Trucks

SAIGON, South Viet Nam (AP) — In a daring pre-dawn raid, a Viet Cong demolition squad stormed into a military motor pool near Saigon today, captured an American soldier, killed four Vietnamese militiamen and blew up 52 trucks.

U.S. officials estimated damage at \$1 million. They said the Communist guerrillas escaped without losing a man.

In the air, U.S. bombers struck at a North Vietnamese missile complex for the seventh day in a row Tuesday.

Launch Copter Assault

On the ground, allied forces launched their biggest helicopter assault of the war in a new offensive in the coastal valleys of central Viet Nam.

One of their first catches was

a 13-member Communist entertainment troupe from Hanoi. They also captured three nurses at a Viet Cong hospital.

In another early action, the cavalrymen killed 15 enemy and captured 16 more while sustaining light casualties.

U.S. Army officers said the Viet Cong blasted a huge hole in the barbed-wire fence surrounding the motor pool and charged through with guns blazing. A platoon of Vietnamese militiamen on guard pulled out during the initial onslaught. Several militiamen were wounded.

Not Identified

The captured U.S. serviceman was not identified.

Officers said the installation's administrative building was destroyed.

The U.S. command also reported that American bombers destroyed one missile when they hit a North Vietnamese missile complex 30 miles northeast of Dong Hoi for the seventh time. That brought to five the number of Soviet-made missiles blown up since Saturday. The site had been a threat to American bombing missions over North Viet Nam.

Officers Catch Jewel Theft Trio In Ten Minutes

MONROE (AP) — It took police in Monroe about 10 minutes to nab a trio of suspected jewel thieves Tuesday afternoon and about an hour to recover an estimated \$5,000 worth of diamond rings.

Monroe County Sheriff's deputies said two women entered the Keidan's Jewelry Store in the Monroe Shopping Center and asked to see some expensive watches.

After examining several, including some which a clerk brought from a back room in the store, the women left without buying. Immediately after the women had left, the clerk discovered a case containing 48 rings, at least one of which was worth about \$850, was missing.

A barber next door to the store said two women got into a car with a man and sped away. Ten minutes later, a city detective spotted the car on I 75 in Monroe County.

Sheriff's deputies arrested the three occupants and recovered 29 of the rings from one of the passengers.

A truckdriver later discovered a purse on I 75 which contained 12 diamond rings.

The three were held at Monroe county jail on suspicion of grand larceny. They were to be arraigned today.

Plan Swing In Space Tied To Agena By Cord

CAPE KENNEDY, Fla. (AP) — Using a blazing Agena rocket as a speeding taxi, the Gemini 11 astronauts soared today to a record height and Charles Conrad Jr. said, "We're at the top of the world!"

"I tell you, you can't believe it!" he exclaimed as the spacecraft raced to 850 miles above the world over eastern Australia. "The view is utterly fantastic!"

"Just out of my left window, I can see all the way to the very end. . . with the horizon all around," Conrad said.

The Agena fired with a jolting burst of power at 3:12 a.m. (EDT).

"It's going!" said Conrad. "It's really going!"

"Have a good ride," the ground controller told him. Within an hour, Conrad and his copilot, Richard F. Gordon Jr., had reached higher in space than man has ever gone before.

Along the way Conrad and Gordon busily snapped cameras. The main purpose of the trip was not to set a record but to obtain high-altitude color photographs of earth for geologists and weathermen.

More Tasks Today

Before mid-day Navy Cmdr. Conrad and Navy Lt. Cmdr. Gordon planned two more space adventures to round out a triple play:

—A 140-minute space stand by Gordon in which he is to pose the upper part of his body through an open hatch to take scientific photographs of the stars. It was to start at 8:37 a.m.

—A unique formation-flying experiment, slated to begin at 12:32 p.m., in which they'll swing through space with their craft tied to the Agena by a 100-foot cord.

Experts continued to assess the overwork problem that forced Gordon to terminate his space walk Tuesday after 44 minutes, far short of an intended 115-minute excursion.

Gordon tired quickly, sweated profusely, breathed heavily and reported he was "popped." Some of the perspiration spilled into his right eye, partially blinding him, and command pilot Conrad ordered him back to the safety of the cabin.

The general feeling of experts is that working outside an orbiting ship is harder than anyone anticipated and that the Gemini equipment is not adequate to handle the heat and moisture generated by a laboring astronaut.

Agena Boosts Speed

Conrad and Gordon began their final full day in space with a bang, sending a signal to fire up the engine of the big Agena, to which they have been docked since a record first-orbit rendezvous Monday.

The 16,000-pound-thrust powerplant responded with a 25-second rush of flame that increased Gemini 11's 17,500-mile-per-hour speed by 626 miles and sent it whipping into a great yo-yo orbit.

As the space ship darted upwards it surpassed Gemini 10's altitude mark of 476 miles, reaching its own high point for the first time at 4:04 a.m. The tiny craft then started the down slope of its roller-coaster trip toward the 180-mile low point.

Gemini 11 was to continue in this path during two orbits, about 3½ hours, before the astronauts again ignited the Agena to return to the original almost-circular orbit of 180 to 191 miles.

The ascent to the record altitude occurred on a path generally running from the Canary Islands in the eastern Atlantic to Australia.

Brush Van Allen Belt

On this course, Gemini 11 barely brushed the lower edge of the Van Allen belt of radiation that circles the globe. The Van Allen band in most areas of the world dips down to as close as 400 miles, and in a few areas it comes as near as 100 miles.

Conrad radioed instrument readings of radiation to the ground, however, and mission control said it was "precisely as predicted." The space agency

Menominee Firm Gets Contract

School Construction Bid Below Estimated Figure

The Escanaba Area Board of Education looked forward to bidding the final two projects on the \$1.45 million bond issue today after receiving favorable bids Tuesday night on the joint Soo Hill, Wells, Lemmer school project.

The Board indicated that bidding on the Washington school and junior high boiler plant portion of the bond issue would probably come in October.

Architects drawings and specifications for the buildings have not been completed.

Howard Herrild Builders, Menominee, was awarded the contract for the additions at Lemmer, Wells and Soo Hill last night after submitting the low bid of \$326,838. Contract award was contingent on the bidder supplying the Board of Education with names of subcontractors.

The projects were bid jointly by the Board of Education and the base bid included both mechanical and electrical work in an effort to conserve construction costs.

Bid Below Estimate
"We were very pleased with the way the bids came in," said Supt. Luther M. Barrett.

Of the \$1.45 million, the Board of Education and its architect, G. Arntzen & Co., Escanaba, had estimated that cost of the three elementary school additions would be \$351,350.

The bid accepted was \$24,512 lower and will help make up for somewhat higher costs than estimated on the Franklin and Southside school project.

Estimated actual construction cost for the Lemmer addition was \$132,000, Wells \$72,000, and Soo Hill \$132,000—a total of \$306,000. The total cost estimated of \$351,350 included site work, furnishing, equipment, remodeling, contingencies, etc.

Barrett pointed out, for example, that furnishings for all of the buildings will cost about

\$50,000 and than architects fees will run near \$70,000.

Enrollment Below Hopes

"We won't know exactly how much money remains to be spent for the Washington and Junior high boiler buildings until we figure all our expenses," he said. The superintendent indicated, however, that with the lower bids last night the bond issue was probably near its schedule.

Barrett told the Board of Education that enrollment in the school district while up from last year, did not reach expectations.

Total students in the school district is 4,444, an increase of 11 students from last year. The district had anticipated about 87 more students.

State Requires Builder Bonds

Many builders, contractors and salesmen still do not recognize that they are required to be licensed under the Residential Builders and Residential Maintenance and Alteration Contractors License Law which went into effect Sept. 1.

Lenton G. Sculthorp, director of the Department of Licensing and Regulation, said, "Every effort has been made to inform the approximately 20,000 builders, contractors and salesmen of the requirements and areas under which the licensing law operates."

The following are those who are not required to be licensed:

1. Persons working for wages only.
2. Any work or operation of one undertaking, the total contract price for labor, materials and other items is less than \$200.00.
3. Subcontractors who do not contract or undertake directly with the home owner.
4. Persons who are selling or installing any finished product or article of merchandise which does not become a fixed part of the structure nor to persons constructing, altering, improving or repairing personal property.

Even though this license law went into effect Sept. 1, 1966, Sculthorp made it clear that the Department will not use any of the law's punitive penalties against tardy applicants who are attempting to comply in good faith. Sculthorp also emphasized that the law provides that applicants are technically licensed once they have filed applications with the proper fee unless notified of denial. The actual license form to be issued later is merely evidence of the license.

All licensees doing less than \$200,000 gross annual volume must submit a \$2,000 license and permit bond with their application. Licensees doing over \$200,000 gross annual volume must submit a \$5,000 license and permit bond. Fingerprints are no longer required.

Anyone desiring a set of rules and regulations which were adopted by the Board may obtain copies by writing to: Department of Licensing and Regulation, 110 Mason Building, Lansing, Mich. 48926.

Barrett said high school enrollment was up from 1,287 to 1,311 and that grades seven and eight were also up. The loss occurred at the elementary level, he said.

"We're not sure why enrollment fell below expectations," he said. "That's what we are trying to determine. We won't know until we make checks on individual students."

Approve Diamond

In other action, the Board accepted the low bid of Sinclair Oil Co. of 11.23 cents per gallon for 50,000 gallons of number two fuel oil and 12.19 cents per gallon for 4,000 gallons of number one oil; gave approval to the City Recreation Dept. and the Escanaba Slowpitch Softball Association to erect a backdrop for a softball diamond at the high school; tabled action on a request from driver education instructors for a raise in salary from \$22.50 to \$27 per student; gave authorization to borrow operating funds against anticipated state aid, and formally accepted the master contract with the Michigan Education Association.

The Board had only four members present for the meeting. Trustees Kenneth Buckland, Wheaton Strom and Dr. Vernon Johnson were missing.

Players De Noc Begin Second Season Thursday

The Players de Noc will commence their second season Thursday evening with the selection of their first play and the nomination of officers. Only a little over a year ago, the players have presented the Escanaba area with three productions. The first was "Tender Trap," directed by Jack Romstad; second was "The Little Foxes," directed by Gordon Flath, third "The Solid Gold Cadillac," directed by Jack Romstad.

The Players de Noc in co-sponsorship with Bay de Noc College took great pleasure in presenting the "Performing Arts Company" of Michigan State University in a performance of Hamlet in March. The near capacity audience at this production has encouraged the Players to sponsor the M. S. U. group again this year and will produce George Bernard Shaw's "St. John."

At the special invitation of the Marquette Community Theatre, the Players de Noc took "The Solid Gold Cadillac" for two presentations in the Kaufman Theatre. This year, the Marquette group will reciprocate, and bring one of their plays to Escanaba.

We invite anyone interested in theatre to join us at the first meeting Thursday evening, 8 p.m., Bay de Noc College at 8 o'clock.

People are needed in all phases of production such as costumes, make-up, scenery, publicity, lighting, sound effects, properties and directing as well as acting.

Emergency List For Retarded Is Pared By State

The present emergency waiting list for mentally retarded children in Michigan will be nearly eliminated in the next several weeks, according to Dr. Robert A. Kimmich, director of the Michigan Department of Mental Health.

Most of the children will be admitted to the Plymouth State Home and Training School which now has additional beds available because of the opening of a new 200-patient building last month.

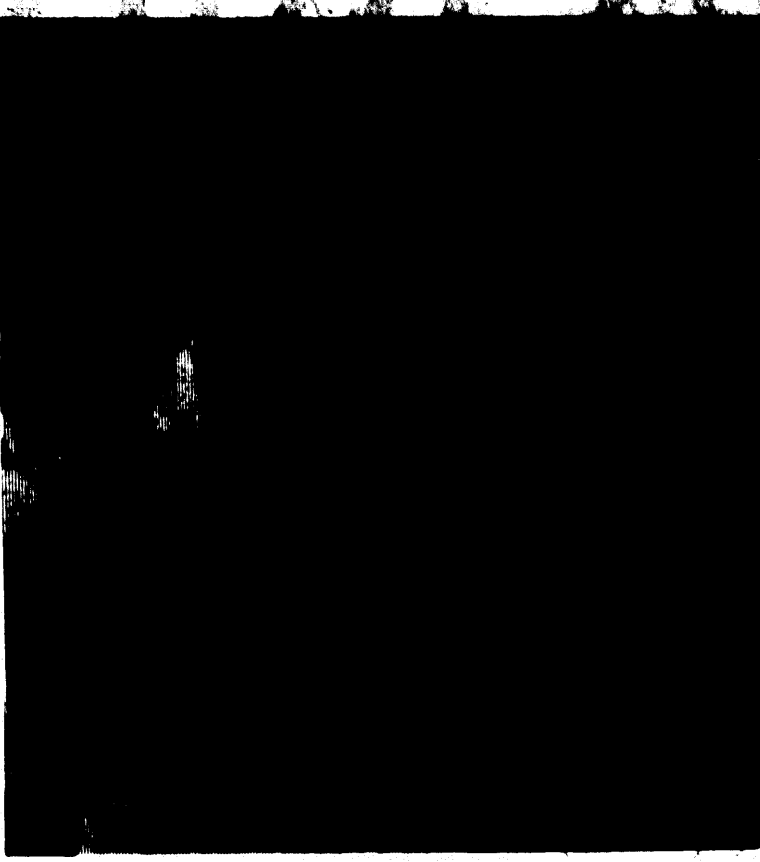

The statewide waiting list numbered 1,774 this month. Of this number, 621 or 35 per cent are "deferred" patients. This group is composed of children who have been officially placed on the list but whose parents do not desire that they be admitted at this time. A total of 964 persons on the waiting list are in the "regular admission" category. Only 159 children are considered emergency cases.

Neither the Caro or Newberry state hospitals have any emergency cases pending.

Briefly Told

There will be an organizational meeting at 8 p.m. Thursday Sept. 15 in room 102 of the Bay de Noc College for all persons interested in beginning square dancing.

David J. Prinski, 19, Rte. 1, Escanaba, was fined \$15 and \$7.30 costs after pleading guilty to unlawful possession of a black duck during the closed season on that species in Judge Fitzharris' court. His test permit was also revoked. Prinski was arrested by Conservation officers on the Portage marsh Tuesday.

NAVY LT. (j.g.) Dieter Dengler with mother at San Diego news conference where he told how he became the first U.S. serviceman to escape from North Vietnam. Dengler escaped from captors in July. (AP Wirephoto)

Escaped Pilot Tells Of Torture:

Walks 23 Days To Rescue

SAN DIEGO, Calif. (AP) — It was like this for the first American pilot to escape from North Vietnamese and Pathet Lao captors:

"They held a gun at my head and went 'click-click — ha, ha, American.' They beat me and hanged me upside down, putting ants on my face," said Lt. j.g. Dieter Dengler.

"We ate things that crawled through our hut. Once we caught a snake that had eaten two rats. We cut it open and ate the rats, too."

Dengler, a slender, handsome 28-year-old from Pacifica, Calif., spoke with a trace of an accent at a news conference. He was born in Germany and came to the United States in 1957.

Tanned, smiling and weighing 143 pounds, 45 more than when a helicopter snatched him from the jungle after five months in a Laotian prison camp run by North Vietnamese, he described his ordeal.

Target Practice
"In one village I was tied to a tree and used for target practice — the guards tried to see

Plan Swing In Space Tied To Agenda By Cord

(Continued from Page 1)

said before the flight that there would be no radiation danger to the pilots.

The pictures that the shutterbug astronauts took as they rose to their record height were important in two respects.

Many U.S. Troop and Nimbus weather satellites are orbiting at around the 800-mile altitude and meteorologists want to compare their black and white pictures with the high-resolution color photos obtained by Conrad and Gordon.

Weather experts feel color pictures would be superior for forecasting, but don't want to invest in an expensive satellite system until they know for certain.

Plenty of clouds came within range of the Gemini 11 camera-men.

Exhaustion Puzzles
Geologists hope the Gemini 11 photos will give them a better idea of the extent of large faults in the earth's surface. Airplanes and lower-flying Gemini and Mercury space ships have shown parts of these faults — breaks in the rock strata. But many are hundreds of miles in length, and hopefully can be captured in full on Gemini 11's film.

Space agency officials continued to puzzle over the workload that brought the sudden end to Gordon's space walk.

"I have no explanation for the quick exhaustion," said Dr. Charles A. Berry, Gemini flight surgeon. "He said he was pooped at a very early stage. We didn't think he would become fatigued that early in the game. The only way we'll find out is to talk to him and learn just how much work he was doing for each task."

Real Estate Assn. Honors Juetten

Dick Juetten, Escanaba realtor, was elected president of the Upper Peninsula Board of the Michigan Real Estate Association at its annual meeting in Marquette Sept. 8. He and Mrs. Juetten will attend the state convention of the Michigan Real Estate Association at Grand Rapids Sept. 14-16.

Hospital

Mrs. Jack Jedrich is a patient at St. Francis Hospital, room 360.

Mrs. Florence Vandeville, Chemical Plant Location, Gladstone, is a surgical patient at St. Vincent's Hospital, Green Bay.

Hendra Resigns At Bark River

The Bark River Harris Board of Education meeting Monday accepted with regret the resignation of Richard Hendra, superintendent of the system, who has accepted a position as educational consultant with the Administrative Services Division of the Michigan Department of Education. He will move to Lansing.

Hendra has been the district's chief administrator since 1964. Before that he served as a teacher in the Menominee schools and more recently was superintendent of schools on Mackinac Island.

The board announced that applicants must meet requirements including a master's degree in administration, five years experience in education. The board approved a bus transportation system for 1966-

67. Also approved was Hot-Flame Gas Co. supply of a heating unit and propane gas for the district's new bus garage.

A special board meeting was scheduled for 8 p.m., Monday, Sept. 26, to discuss building and reconstruction plans for the district's new bus garage.

In other action, Mrs. Roy Mitchell was hired to fill a third grade vacancy, sick leave policies for non-teaching personnel were adjusted, several lunch rates, reductions were approved, and teacher contracts were signed.

The board purchased another \$10,000 of Bark River-Harris Elementary School Bonds, from the John Nuveen brokerage firm in Minneapolis. This purchase reduces the school district's debt payments by approximately one year. The board had purchased \$40,000 of its bonds earlier this year and a board spokesman expressed confidence that the new elementary school debt would be retired several years earlier than originally planned.

Jerome Shiverski Wounded Second Time In Viet Nam

Pfc. Jerome T. Shiverski of the U. S. Marines, son of Mr. and Mrs. Steve Shiverski of Perronville, was wounded for the second time in the war in Viet Nam on Sept. 6.

He has been moved by air to the U. S. Army hospital in Kue, Okinawa and will be there for quite some time, his family has been informed. The Red Cross notified his parents that his address is U. S. Army Hospital, Kue Okinawa, APO San Francisco 96331.

Death Claims Peter B. Scott

CHARLEVOIX — Funeral services for Peter B. Scott, 59, retired light-house keeper, were held Saturday at the Charlevoix Funeral Home here with the Rev. Leon Wimmerman of the First Methodist Church officiating. Burial was in Brookside Cemetery.

Mr. Scott died Friday morning enroute to the Charlevoix Hospital following a brief illness.

Born in Norwood Township near here, April 17, 1906, he moved to Charlevoix as a child and was graduated from the Charlevoix High School in 1927. In the early 1930's he entered the U. S. Lighthouse Service which became a part of the Coast Guard in 1938. He served in many stations along Lake Michigan including those at Minneapolis, Escanaba and Marquette until his retirement in 1962. He returned here the following year to make his home. His wife, the former Edith Hamlin, preceded him in death in January, 1962.

Surviving are a brother, Charles E. Scott of Honolulu, and three sisters, Mrs. William I. Supernaw and Mrs. Clifton Gregory, both of Charlevoix and Mrs. Stanley Preston of Kalamazoo.

The island of Martinique has three times as many Frenchmen per square mile as France itself.

New Many Wear FALSE TEETH With Little Worry

But, talk, laugh or sneeze without fear of insecure false teeth dropping, slipping or wobbling. FASTTETH holds plates down and more comfortably. This pleasant powder has no gummy, soapy, pasty taste or feeling. Women's cause names and more comfort. It's also water resistant (non-acid). Checks "plate odor." Dentures that fit are essential to health. See your dentist regularly. Get FASTTETH at all drug counters.

Rip Van Winkle Couldn't Sleep with Nagging Backache

Now! You can often get the fast relief you need from nagging backache, headache and muscular aches and pains that may cause restless nights and miserable tired-out feelings. When these discomforts come on with over-exertion or stress and strain you want relief — want it fast! Don's Pills by their speedy pain-relieving action, work promptly to ease torment of nagging backache, headache and muscular aches and pains.

Also, when mild bladder irritation follows urinal or drinking — often setting up a restless, uncomfortable feeling — Don's Pills work in two ways for comforting relief: 1) their soothing effect on bladder irritation; 2) Don's mild diuretic action through the kidneys tending to increase output of the 10 million of kidney tubes.

Enjoy a good night's sleep and the same happy relief millions have for Don's large size. Get Don's Pills today!

Free Dental Services Assured

Exchange Club Clinic OK'd

Escanaba Exchange Club leaders gave their endorsement to continuation of the club's free dental clinic for needy children of Delta County at a meeting with representatives of the Delta County Dental Society and government health services at the House of Ludington Tuesday night.

Robert Abb, vice president of the club, presided at the session, which reported the club's difficulty in staffing the clinic at Escanaba Area High School this summer, and which found a hoped-for solution in the co-operation of the Delta County Dental Society, the Delta Menominee Public Health Department and the Dental Division of the Michigan State Department of Health.

The club, said President Ted Breitenbach, has been very impressed with the community good accomplished since 1959 by its sponsorship of the dental clinic for needy children and is reluctant to drop the project. But its efforts to find a dentist to give the service this year haven't been successful so far.

Abb said that the dental clinic program, headed by William Meiers and Breitenbach, needed clarification of relationship with the Delta Society. This was supplied by Drs. R. J. Stanchina and Roger D. Beauchamp. They said that the Society favors continuation of the club's dental clinic and will supply supervision for the clinic, which it regards as the proper function of the Society and for which it is professionally qualified.

The Society pledged its effort to help obtain a dentist for the clinic for this summer and Dr. John Collins of the State Health Department said it would also help the club try to find a dentist. He recommended that the club consider sponsorship of the clinic by the Delta Menominee Health Department for several reasons, including legal liability and coordination with government dental services.

Govt. Dentistry Coming
There was praise for the Exchange Club's clinic project in the session and agreement that it will be needed for several years at least, even with the start next April 1 of Title 19 of the Social Security Act which will provide complete dental services free to persons receiving Aid to Dependent Children, Aid to the Disabled, Aid to the Blind, Old Age Assistance and categorically related welfare clients. Private dentists will treat such patients and be paid by the government.

Representatives of the Welfare Department, UPCA, and Community Action Agency counseled that the Exchange Club Clinic not be dropped in anticipation of the new free government dentistry program starting next spring, because while it will cover many of the same children served, it will not assuredly serve all the needs of dentistry for needy children in the area.

Tom McDermott, Delta County Welfare director, said there are 580 Delta County children receiving ADC and 20 cases pending and that "every one of those children need dental care because they don't go to dentists."

Funds Available
The Delta Menominee County Health Department has a grant of \$5,000 for a local dental program, like that of the Exchange Club, operative until June 30, 1967, said Dr. Collins. The Exchange Club has \$3,000 in its dental fund as result of its rag sales, auctions and other public activities to help youth.

The club has been informed, Abb said that the high school needs the room used for the dental clinic, but will continue to make it available for the clinic a half day a week, on Saturday and Sundays and through the summer.

The clinic has given corrective dental services to 600 Delta County children. It examined 800 last summer, treated 400 of them. It faces continued usefulness, all speakers said. The rules for eligibility for social security dentistry next year will limit it to a single person with income of \$1,900 or families with \$2,700 and with \$400 more per dependent child. This would permit a family of 8 to have an income of \$5,100 and still qualify for free dentistry.

Upshot of the meeting was agreement to ask the County Health Department to assume sponsorship of the clinic, with the Exchange Club continuing its identity as the author and financial sponsor (with government aid) and with the school district continuing to supply quarters and the Dental Society supplying supervision.

Session Planned For Republicans

There will be a Women's Leadership training session for Republican women, Friday, Sept. 16 from 10 a. m. to noon at the Republican Headquarters, upstairs at 707 Ludington St., Escanaba.

This meeting is for all women from Delta and Schoolcraft counties who are able and willing to help work in any way during the fall campaign and election.

Ranny Reicker from the State Central office will be here to present the session.

All Republican women should plan to be present for this important session.

Markets Fined On State Charge

Three Upper Peninsula markets were fined in August on State Department of Agriculture charges that they sold ground beef with excess fat. Fined were Bud & Tom's Red Owl, Perkins, \$18.30 by Justice A. J. Mortier, Gladstone; Hub's Super Valu, Munising, \$20 by Justice Walter Jonas; and Red Owl Store 507, Munising, \$100, by Justice Jonas.

Hermansville

James E. Gribble was elected 2nd vice president of the Wilson Area office of the community action agency held recently at the Bark River-Harris Elementary school.

Mases at St. Mary's Church, Hermansville on Sunday Sept. 18 will be at 8 and 10 a.m.

The recent meeting of the Hermansville Volunteer Fire Department was devoted to reports on the Volunteer Fire Department convention and a tournament held at Menominee. The local Fire Department was host to the convention. After the meeting, James Gribble showed movies on the convention.

Two representatives for Fire Hose companies attended the recent meeting of the Meyer Township Board and discussed with the Board fire hose. The Township Board is interested in purchasing new fire hose.

A representative of the Upper Peninsula Tourist Association also attended the meeting and discussed tourist promotion for the area.

The Holy Name Society of St. Mary's Church will begin their meetings for the Fall season Wednesday evening at 7:30 in the Church Parish Hall.

Sgt. and Mrs. David Whitens and son Ralph left Tuesday morning for Fort Sill, Okla., for his new assignment after spending 30 days with his mother, Mrs. Flora Whitens. Sgt. Whitens visited here after completing five years overseas duty in Germany.

James Gribble, Elmer J. Pipkorn, Reuben J. Marcove, Art Schultz and Frank Rodman serve on Menominee County's Small Business Loan Development committees.

Brothers, Inc., distributors for Barko Pulp and Log loaders had a display and attended the Loggers convention held in Iron River and Stephenson the past week.

Berger and Robinson Heating of Escanaba was awarded the contract to install a gas furnace in the Community Club building. Mrs. Richard Lungenhausen was hired to fill a vacancy in the faculty. These actions were taken at the recent meeting of the Board of Education.

The first iron factory in England was established in 1161, according to the Encyclopaedia Britannica.

Rotarians Enjoy Spanish 'Majors'

Escanaba Rotary Club at its luncheon meeting Tuesday in the House of Ludington enjoyed one of its "family" programs with two of its "sons" home from studies abroad to report on their activities abroad.

They are both Spanish language students majoring in that study: Richard Anderson, son of Mr. and Mrs. Axel Anderson of 1701 5th Ave. S., a senior at Kalamazoo College, and Michael Gafner, son of Mr. and Mrs. August Gafner of 826 S. 15th St., a sophomore at Michigan State University.

Anderson has spent a year in Bogota, Columbia, South America and he illustrated his talk with slides of that country. It was his second trip to Columbia and he spent part of his time there working in a glass factory and he lived with a Colombian family.

Both young men had been students of Mrs. Donald Haapala, Spanish teacher at Escanaba High School, and she was a guest of the club for the program.

Michael Gafner spent eight weeks in Madrid, Spain coaching baseball and playing. He won his numerals as a freshman player at MSU.

Both young men are as fluent in Spanish as they are in English.

Gafner told his hosts that Spaniards are apt to think — conditioned by American television — that everything west of New York City is strictly Ponderosa, with the Cartright Family from "Bonanza" in

charge of things. Prices go up in Spain, he said, when Americans shop because the Spaniards think that all Americans are rich. "We like to pretend that we're Dutch, when we can," said Gafner.

Gafner visited Luxembourg, home of his paternal relatives, and he had fun in Esch, Luxembourg of having a cousin of John Lemmer's have him paged at the airport upon arrival six times. John Lemmer, former Rotary district governor, is a Luxembourgish who misses no opportunity to enhance U. S.-Lux relations.

Jewish High Holy Days Begin Today

NEW YORK (AP) — The ram's horn sounds around the world at sundown today, signaling the start of the Jewish high holy days and the Hebrew year 5727.

Services celebrating Rosh Hashanah, or the Jewish New Year, will be held in temples, synagogues and military installations from Jerusalem to Viet Nam.

The advent of Rosh Hashanah marks a 10-day period of meditation which concludes Saturday, Sept. 24, at the end of Yom Kippur, the Day of Atonement and the most solemn Jewish observance.

Shopping Center

ADRIAN (AP) — A realtor, Raynor Snyder, has announced plans for a 50-acre mall-type shopping center near the southern edge of the city. Snyder said construction will start either late this fall or early in the spring.

Heads Tomlinson

CLEVELAND, Tenn. (AP) — J. D. Wilkinson Jr., an engineer, has been named president of the new church-supported Tomlinson College in Madison.

Thank You

We would like to take this means to thank all our wonderful customers who patronized us these past six years. We sincerely treasure the friendship that we have made.

Mr. & Mrs. Arnold Wilson
CITY CLEANERS

Zambia Copper Strike Widens

LUSAKA, Zambia (AP) — The strike situation in Zambia's vast copper mining industry worsened again Tuesday.

Another 2,000 men joined 7,000 African miners already on strike at the Roan Selection Trust's Mufulira mine and the Anglo American Corp. Rhokana plant. Though spokesmen for the companies would not comment, it was known they feared another paralyzing stoppage by the industry's 37,000 black labor force.

It was only a week since the majority of miners returned to work following an 11-day strike which cost Zambia \$16.8 million in lost production.

The trouble stems from the Mufulira mine where 6,000 hard core strikers have ignored government and union appeals for a return to work.

Militant miners there refuse to accept assurances their savings in the company's pension fund are secure and are continuing to demand a payout before the state-run providence scheme begins Oct. 1.

Phony Money Orders Hit Local Merchants

Escanaba Police are investigating a series of forged money order complaints from local merchants.

Police said the money orders—all in the amount of \$90—have been returned to merchants from a New Jersey bank. The money orders from Travelers Express Co. were stolen and not valid, police said.

At least three Escanaba stores, Sav-Mor Foodliner, Piggly-Wiggly, and Ernie's Party store were victimized, police said. There are reports that other merchants may also have cashed similar money orders.

Officers said the money orders were made out by a Florida firm and all endorsed by the same person. When presented to the bank for payment, they were refused payment. The person who cashed the money orders is believed to have been a transient, who passed through the city, hitting several stores.

State Police of the Gladstone Post said no money order complaints have been received from anyone outside the city, but that it is possible that merchants haven't yet been notified by the bank refusing payment.

Spending For Schools

The Rapid River School District is going through a great unhappiness about its failure to win re-creditation by the Bureau of School Services of the University of Michigan.

When it's your own illness it hurts, but the impression is inescapable from the outside that good will come of it. And there is another strong impression that this is a rather general school quality problem.

George Mills, the educator who visited the Rapid River schools and reported on their condition and program, told a public meeting on the accreditation problem about the trouble in terms of money.

He said that the district has an adequate valuation, but has not made enough of a school tax levy on it to support a good school program. As a result its classes are too large, some of its study materials are out of date, the housing isn't good, and counseling and some other services are lacking.

The citizens of the district went to the meeting critical of the accreditation process, but most of them apparently went home critical of themselves.

American parents are in a poor position to judge the quality of schooling that their children are receiving and they should be grateful if agencies like the Bureau of School Services bring professional appraisal.

Rapid River turned down several millage proposals and the schools tightened their belts. When operating millage was finally voted it went to pay the teachers more and the old problems of not enough teachers or classrooms went unsolved. It is the privilege of voters to operate their schools this way, but such schools cannot keep accreditation. Now, hopefully, the citizens know about the problem and they will support the board of education in correcting it.

There is a lesson here for us all. It is that when taxpayers deny schools needed funds they are pretty apt not to have bought an economy, but rather a deterioration of education.

The big look at the Rapid River situation suggests that the citizens committee and board of education acting in concert and with great good will and devotion probably cannot solve the district's school problem fully. The district as now constituted only has 505 students and the Michigan School Reorganization Act sets up a guideline of 2,000 minimum enrollment for a kindergarten through 12th grade district.

While this number is not realistic in all situations it suggests that for good school program Rapid River should be considering merger with another district.

Voters turned down a Rapid River-Gladstone merger in June with the seeming suggestion that the issue hadn't been considered carefully enough and wasn't well understood. There will be other proposals for consolidation, but, as in the case of the Bark River-Harris consolidation with Escanaba Area School District, some state guidance in redistricting seems needed.

Local efforts at school districting usually start with preservation of the biggest, strong school districts and hooking the little districts onto them like sausages. This denies to school districting the chance for an overall assembly of resources and their apportionment into patterns of greatest logic. Delta County has always assumed that the Escanaba and Gladstone systems were inviolate, but eventually there should be overall consideration of school districting.

Fortunately there has been a great erosion of local patriotism in school districts in recent years. The public has gradually accepted the idea that schools are created to educate children and not to express the community's pride in self-sufficiency. If a community's children can be better schooled in the next town, there's much more apt to be a reaction of "Let's go" today than there would have been a few years ago. It has become so difficult and so expensive to provide good schooling that the hope of doing it with small enrollment or small resources is dead.

Peril On Air Force 1

By WASHINGTON STAFF
WASHINGTON (NEA) — Idaho Gov. Robert Smylie, Rep. George Hansen and some other Idahoans hooked a ride with President Johnson recently when he winged westward on Air Force One for another of his "nonpolitical" tours.

The Idaho group looked forward to the trip eagerly, having heard that life aboard Air Force One is fairly luxurious. Said one of the President's guests: "I understand you get a Purple Heart if you get hit with a champagne cork."

The huge company of newsmen and photographers which covers President Johnson on his road trips cannot move en masse everywhere he goes. From time to time they are represented by a mere handful, called a "pool," who then report to all the others.

On one recent excursion, however, the facilities for accommodating the press at a particular place seemed to fall somewhere in between.

A press bus pulled up near a makeshift helicopter field. A White House staff man yelled: "O. K., poolers follow me." Thereupon a veritable stream of reporters and cameramen piled out of the bus and, like a school of porpoises, headed for a helicopter.

One of the newsmen left behind, his voice tinged with obvious envy, commented: "That's the most oceanic pool I've ever seen."

Frank O'Connor, New York City Council president and likely 1968 Democratic nominee for governor of New York, told the National Press Club that the 1965 New York City winners made a pretty impressive three-way parlay.

Mayor John Lindsay, a Republican-Fusion candidate, was the star victor. But he did not troubles on.

Gosh, what a guilt complex we'd all get if we didn't have the Communists to blame our own parties.

Tech Experiments At Baraga

Use Birds To Fight Worms

A Michigan Tech forestry professor is attempting to increase the songbird population in the Upper Peninsula in an effort to save large stands of jack pine from destruction by insects.

Dr. Norman Sloan has spent the summer living in the bush on the Baraga Plain, in an effort to reduce an infestation of jack pine budworm. These worms have also been found in downstate jack pine stands. Damage to trees on the Baraga Plain is already heavy, and if not controlled, may lead to total destruction of valuable forests through defoliation.

Dr. Sloan is working on the theory, proven in Germany, that an increase in bird population will reduce the insect count. Since the area is not attractive to birds, he is trying to attract more by installing bird boxes for nesting and adding to the available summer water supply. Three types of birds predominate in the area now—chipping sparrows, slate-colored juncos and myrtle warblers. Time will tell whether other varieties can be attracted to the area.

"The budworm infestation in the Baraga area is extremely serious for the sportsman as well as the forester," Dr. Sloan says, "because the damage to the jack pine is upsetting the natural biological cycle for all growth in the area. This will mean less food and cover for small game and especially deer."

Working with the aid of a two-year \$14,900 National Science Foundation research grant, Dr. Sloan makes daily checks of two 40-acre tracts owned by the State Conservation Department, where fine nylon nets have been installed to catch birds in flight.

Birds that are caught are banded in order to study migration and feeding habits. More than 1,300 have been banded since the experiment began. Primarily, the search is for nesting birds which can be induced to live in jack pine forests. The Baraga Plain forest is a monotype, almost exclusively jack pine, and is not especially attractive to birds.

While trying to attract more birds, Dr. Sloan is also studying budworm-infestation in 100 sample plots of pine. Destruction of trees is almost complete in some of the plots. The budworm eats all the needles from the trees, leaving forest areas dead, brown in color. In other areas, damage to the pine is

lighter, but still extensive.

Dr. Sloan's work is a long-range effort. It may take several years to determine whether songbird populations can be successfully increased.

Exact cause of the sudden outbreak of the peck pine bud-

worm is not known. In addition to the infestation on the Baraga Plain similar conditions exist in the Yellow Dog Plain in west Marquette County south of Big Bay, and on the Au Sable Plain, near Roscommon in Lower Michigan.

The Doctor Says:

Electronics Place In Medicine

By DR. WAYNE G. BRANDSTADT

Modern electronic devices are being used in every field including human physiology, the chemistry of living organisms and the diagnosis and treatment of disease.

One of the first of these, the electrocardiograph, has been with us for over 50 years and has become a common and indispensable item of medical equipment. Earlier models have been improved and simplified and the number of different angles from which the electric impulses within the heart may be studied has been greatly extended from the original three leads.

Valuable as this device is, it has its limitations. It is employed chiefly to detect disorders of cardiac rhythm such as skipped beats, abnormally fast pulse and various types of heart-block, the changes that occur when the left side of the heart is greatly enlarged and those that occur after an obstruction in a coronary artery has damaged the heart muscle.

The electroencephalograph or brain wave machine was developed over 35 years ago and has its greatest field of usefulness in detecting epilepsy in persons even when they are not having an attack. It may also give your doctor a clue concerning brain damage caused by concussion, brain tumor or oxygen deficiency.

The short wave diathermy machine applies heat to painful muscles and joints to depths beneath the skin which a hot water bottle or electric pad cannot penetrate.

The endoradiosonde or radio pill is an ingenious device about 0.4-inch in diameter and 1.2 inches long. It contains a radio transmitter and, when swallowed, will send out to a bedside monitor such information about conditions within the digestive tract as temperature, level of acidity, or alkalinity, enzyme activity and a variety of other information. Other electronic aids to the practice of medicine will be described tomorrow.

FLAGMEN

Going to Canada three weeks ago, seven from the U. P. were at the stock car races.

For only seven people they took the time to take our flag around with the Canadian flag and also play our national anthem, which followed theirs.

Don't you think we should show our appreciation and do the same for them?

I think it would make them feel welcome, as it did us.

Suzanne Bodette
Garden

People, Events Of Yesteryears

From the files of the Escanaba Daily Press

25 YEARS AGO

Although some of the persons eligible have not yet taken advantage of the Food Stamp Plan, which was inaugurated in Delta County in August, county welfare officials said that the plan has had excellent general acceptance.

The fur may not fly when the Eskimos of Escanaba high school invade Stambaugh but indications are that leather will, Ed Gauthier, quarterback, will do most of the local's hurrying. The knowledge of that factor won't materially increase chances of the opposition, however, since Gauthier as signal caller shifts himself about from quarter to blocking back to halfback and back again, pass or otherwise.

54 YEARS AGO

With the Women's club getting good results in their campaign for a visiting nurse for this city, that office would be filled by a competent person within a week or ten days time.

To give the Northern State Fair patrons something unusual in an exhibition the First National Bank had on display, "The Village Blacksmith," a painting valued at \$80,000. The painting was finished by Herbert de Mareau, a French artist, in a blacksmith shop in Lyons, France in the year 1893.

Shirt Off Back

LOS ANGELES (AP) — Eight taxpayers have mailed the Los Angeles County assessor the shirts off their back.

A note with one told Assessor Philip E. Watson, "Dear Mr. Watson, this is to inform you that your increased evaluation of our property is taking the shirts off our backs."

"We get a few jokers every year," said a deputy assessor.

Dear Ann Landers: YOU have a problem. It is called exaggeration. When "Los Angeles Heartache" complained about her daughter-in-law's dirty house you replied, "If all the women who wrote to me on this subject were lined up they would reach from Anchorage to Amarillo."

The distance from Anchorage to Amarillo is approximately 2,450 miles. If you allowed six feet of space for each complaining woman 2,450,000 women could fit into that space very nicely.

Will you take twenty lashes with your old typewriter ribbon — or do I grieve my garters? — D.D. OF MILES CITY

Dear D.D.: I just put in a new typewriter ribbon so I'm going to try my damndest to wessel out of the punishment. (If there's anything I hate it's ink on my back).

I figure that for every woman who writes about a problem there are about a thousand who have it but don't write. Since you are apparently much better with figures than I am, please let me know if this gets me off the hook — somewhat.

P.S. If I am guilty of overstating the case you are equally guilty of understating it. I just learned that the distance between Anchorage and Amarillo is 2,496 miles!!! So go ahead and grieve your garters, Bub.

Dear Ann Landers: I'm a girl, 18, brought up by cultured parents who have high morals and good taste. I have been exposed to extensive travel, fine art, music and literature. My father is one of the city's most prominent civic leaders.

You would think that I'd be interested in young men of similar backgrounds and interests, but I'm not. For some strange reason, I am drawn to crude rough-necks — boys with backgrounds very different from mine.

I am in college now and have been dating three fellows. I would be ashamed to have my parents meet any one of them. They'd think I had slipped. Maybe I have. Why am I attracted to the unpollished types — fellows who are poor marriage material? Straighten me out — PLEASE! — CONCERNED ABOUT THE FUTURE

Dear Concerned: When a girl is attracted to young men she'd be ashamed to introduce to her parents, it strongly suggests she is rebelling like a pouting child.

"Watch For Our Giant GRAND OPENING October 1st"

Soapy Williams' Son Quips:

'Kidney Stone Vote Could Elect Us!'

Gary Williams — who looks quite a bit like the young G. Mennen Williams—he's 6 feet 6 inches and his father is 6 feet 4 inches—is campaigning in Escanaba today for his father.

He'll address a kick-off campaign meeting of Delta County Democrats at the Sherman Hotel at 7:30 tonight and tell them his father, the former governor and Democratic nominee for U. S. senator is sorry to be convalescing after surgery and not campaigning yet for election.

G. Mennen Williams is home at Grosse Pointe Farms after surgery for removal of kidney stones and he's up and about, walking five miles a day, and gaining strength, said Gary.

"It's a tough break," said his son, "but it could have been worse. The surgery could have come during the primary campaign or later in this campaign and that would have been disastrous. I think it may even be helpful. If we can get the kidney stone vote in Michigan I think we're in. I've been amazed at the number of people who wrote in to express their sympathy and say that they'd had the same trouble.

Til Full Steam
"There were some nasty rumors around Detroit that we hadn't been truthful about Dad, but we've told the whole truth. The rumors probably won't die until he gets around again on the campaign trail and people can see that he's fine.

"He'll be out within a week. He feels now that he can be on the road, but we're trying to hold him down until he's got full steam.

"He was able to visit every county in the primary campaign. This time he's going to concentrate on all the congressional districts. We're pushing the registration drive. There's something like 1.8 million unregistered voters in the state and if half of them are Democrats and we could register

Gary Williams

them and get them to vote, we could elect any state officer.

Registration Pushed
"We feel that this registration is our first project. There are so many unregistered Democrats

Labor Day Death Drivers Had Low Point Level: Hare

LANSING (AP)—Most of the 29 drivers involved in traffic fatalities in Michigan over the Labor Day weekend were well below the 12-point level, secretary of State James Hare said Tuesday.

"In fact," Hare said after a meeting of the State Safety Commission, "only one of them was anywhere near the 12-point mark."

When a driver reaches the 12-point level within a two-year period he can be called in for re-examination and faces possible suspension of his license.

Hare's labor day weekend survey was in answer to a similar survey made over the July 4th weekend by the Automobile Club of Michigan. The auto club concluded from its statistics that the violation point system was not working "or not being enforced as it should be," and that some of the drivers involved should not have been on the road.

Edward Rockwell, legislative agent for the auto club, said its study of the holiday weekend fatalities was not yet complete.

Thirty-five persons were killed on Michigan roads over the Labor Day weekend, State Police reported.

Of the drivers involved, "the worst had 11 points on his record," said an aide to Hare, who is in the process of compiling the information. The report on the last driver came in Tuesday, he said.

ocrats around. It's a sin when you get 80 per cent of the people voting in Viet Nam under the threats they live under and that in Michigan we have such apathy.

"My father is scheduled for two separate trips into the Upper Peninsula in the campaign. There'll be more of a contrast between (Senator Robert) Griffin and Dad than there was between (Detroit Mayor Jerome) Cavanagh and Dad. He

State Cemeteries Are Integrated

LANSING (AP) — Racial discrimination can no more be enforced in cemeteries than in other forms of property, the State Court of Appeals ruled Tuesday.

Upholding a decision by Genesee County Circuit Judge Stewart Newblatt, the Appeals Court said the U.S. Constitution forbids enforcement by state action, including action of state courts, of written racial barriers.

Newblatt, whose opinion was quoted in full by the Appeals Court, wrote: "It strikes me that the carrying of racial discrimination into the burial grounds is a particularly stupid form of human arrogance and intolerance. If life does not do so, the universal fellowship of death should teach humility."

Newblatt's ruling upheld the case of Merrill Spencer against the Flint Memorial Park Association, owner of a Flint cemetery. Spencer sued when he was refused permission to bury a Negro in the cemetery.

combines the issues of prosperity and inflation. We've got a real message to get across that Michigan's real prosperity is a result of national prosperity, because the state exports about 90 per cent of its products. The prosperity is due to the Johnson-Kennedy new economics.

"I think the inflation issue is a real difficult one to sell because so many of the indicators are ones that the public doesn't grasp. This is the only time that we've had such a boom with full employment. They say it's hard to find people for jobs, even in Escanaba, so the boom has gone down into the public and everyone's got a job. Still it's hard to tell the housewife that things are so good for her, because she used to buy an armload of groceries for \$25 and now she gets a handful. But she used to buy hamburger and now she's buying steak.

"I love politics but I don't know that I want the steady diet that Dad has had.

I graduated from Princeton and I've had a year and a half of law school (at the University of Michigan) and I'm contemplating going back after the campaign.

"I'm married and have G. Mennen III at home.

"My mother is carrying a heavy campaign schedule. In the primary when Dad was outside she was in the metropolitan areas. She hopes to get up in late September, but I don't know how her schedule may have been changed by Dad's illness. We're all anxious to help not only Dad, but the whole ticket, including Congressman Ray Clevenger."

Nelson Urging Lakes Rescue

WASHINGTON (AP) — Legislation to set up a nationwide system for preservation of lakes was proposed today by Sen. Gaylord Nelson, D-Wis.

Many of the nation's finest lakes, Nelson said, are on the way to becoming "stinking cesspools, filled with pollutants, trash and mud, devoid of animal and plant life, and practically useless to man."

The lake bill is the sixth in a series Nelson has introduced with the intent of saving America's fresh water assets. Most of the others would strike at various forms of pollution such as municipal sewage, industrial wastes, shipboard discharges, detergents and pesticides.

He said that in addition to keeping pollutants from the lakes, it is important to establish a national program for the lakes. The program would provide for studying and classifying the lakes and in some cases for the acquisition of shoreline to prevent their destruction.

Lakes already suffering deterioration, Nelson said, include Lakes Ontario, Erie and Michigan in the Great Lakes chain; Lake Winnebago in Wisconsin, the Madison (Wis.) Lakes; Lake Okechobee in Florida; Lake of the Woods in Minnesota; Lake Champlain in New York; and Lake Washington near Seattle.

Briefly Told

Bay de Noc Encampment 174 will meet at 8 p. m. tonight.

The freezer bandits at Smitly's Service Station, 2300 Ludington St., aren't. Police said today that a local firm had been instructed to pickup a pup machine from the station and took the freezer instead.

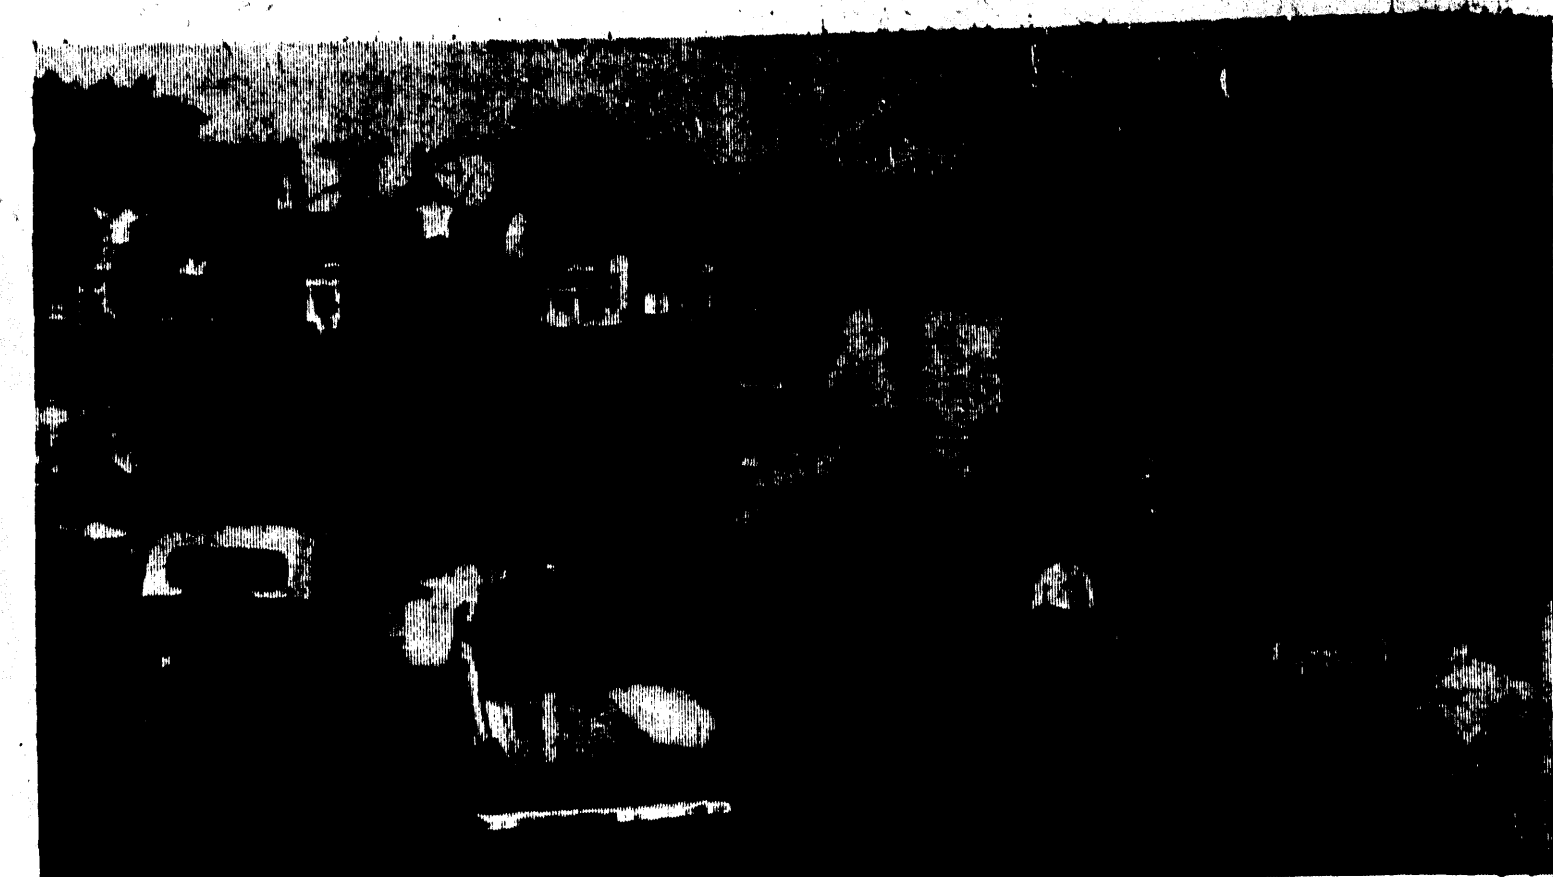

Escanaba firemen were called to the alley behind 106 N. 15th St. at 9:15 a. m. Tuesday where garbage in a city garbage truck caught fire from smoldering ashes. The load was dumped an extinguished.

Delta County Sheriff's officers are investigating reports that someone has been entering the Ford River school. Deputies said that nothing appeared to be missing and that the building was not damaged in gaining entry.

Raymond J. St. Vincent, 27, of 418 S. 18th St., and Ernest C. Wilson, 26, of K. I. Sawyer, each paid fine and costs of \$17.30 after pleading guilty to conservation charges. St. Vincent was arrested in Portage Marsh Monday and charged with attempting to take migratory waterfowl without a federal migratory waterfowl stamp. He was arraigned Tuesday before Justice A. J. Mortier. Wilson was arrested Tuesday in Little Bay de Noc and charged with hunting in a game refuge area when arraigned before Justice Ross Davis.

Take Alarm Too

LANSING (AP) — A burglar alarm didn't bother thieves who broke into a grocery in Lansing Monday night and stole a quantity of beer. They stole the burglar alarm, too.

WALLS OF THE NEW State Bank of Escanaba building are rising on its big site on 11th St. at 1st Ave. N. The E.H. Co. of Toledo, bank building specialists, are the general contractors with the construction subcontracted to local firms including Olsen & Flath, masonry, concrete and carpentry work; Kobas Electric Co., electrical installations, and Berger & Robinson, mechanical work. The building is scheduled for completion by the end of the year, with occupancy planned for early 1967. The walls are of charcoal brick with white mortar. (Daily Press Photo)

Planners Call Special Meet

The Escanaba Planning Commission will hold a special meeting at 4 p. m. Thursday at the City Hall.

Three items have been scheduled for discussion on the agenda prepared by City Controller Milton Emba.

1. Consideration of recommendation of the Zoning Ordinance; 2. Further consideration of the Walch request; 3. Further consideration of the Goulais request.

The meeting follows a week after a public hearing on a request by the Walch Development Co. to rezone approximately 18.3 acres on the west side of S. 23rd St. to permit development of a shopping center.

Dale Vinette, chairman of the commission, promised at the public hearing that the commission would reach a recommendation on the request "within a week."

The parcel of land in question is now zoned class A residential and the request is to rezone the area to commercial to permit the shopping center construction.

Johnson Signs Mine Measure

WASHINGTON (AP) — President Johnson signed Tuesday a bill providing an alternative method for tax treatment of large exploration expenditures for minerals other than oil and gas.

Present law sets a ceiling of \$100,000 a year and \$400,000 lifetime on income tax deductions for such expenditures.

The revision would allow an operator to continue under these ceilings or use an alternative plan removing them but providing for a recapture method if this plan is elected.

Under the recapture plan, the taxpayer would have his percentage depletion allowances reduced by the amount of the deductions he had taken.

If he sold the property, his capital gain would be treated as ordinary income for tax purposes up to the amount of the deductions.

However, the taxpayer would have to decide which alternative he is going to use within three years after the first exploration expenditures.

In Service

Mr. Kenneth Briere, son of Mr. and Mrs. Ernest Briere, Wells, is serving in Viet Nam with the U. S. Army. A 1960 graduate of Escanaba high school Briere entered service Dec. 6, 1965, and completed basic training at Fort Leonard Wood and special training at Fort Holabird, Md.

Obituary

FRANS VICTOR CARLSON
Funeral services for Frans Victor Carlson were held at 2 p. m. today at Kelly Funeral Home chapel with Rev. Ruben Carlson officiating. Burial was in Gardens of Rest Cemetery. Pallbearers were John, Richard and James Bishop, Larry and Byron Carlson and Ronald Sisko.

3,000-Piece Band

EAST LANSING (AP) — Half-time at the Michigan State-North Carolina State football game Saturday will feature a 3,000-piece band. Joining in the performance will be MSU's 175-man marching band and musicians from 35 high schools. George Wilson, director of the National Music Camp at Interlochen, will be guest conductor.

Aerial Bridge Outlook Bright, States Biltzke

The Upper Peninsula Air Service Committee of UP-CAP, meeting with State Department of Aeronautics officials in Escanaba Tuesday, was told by Joseph Biltzke, assistant state attorney general, that things are looking up for "aerial bridge" service between Michigan's peninsulas.

The "aerial bridge" is aviation talk for the air service across Lake Michigan between Escanaba and Traverse City. It was tried experimentally and suspended several years ago by North Central Airlines for lack of sufficient patronage.

Escanaba, Marquette and other cities of the U. P., UP-CAP's Air Service Committee, Traverse City and the State Department of Aeronautics will ask the Civil Aeronautics Board in a Washington hearing Oct. 5 for reinstatement of "aerial bridge" air service between the Upper Peninsula and Lower Peninsula. Service is now via Green Bay, Wis., and not direct between the state's peninsulas.

U. P. Upurgence
Biltzke and Fred Waite, deputy administrator of the Department of Aeronautics, attended the meeting in Escanaba Tuesday with Chairman Harold Vanierbergh of the Air Service Committee, Albert Hall of UP-CAP, Escanaba City Attorney John Erickson, who is preparing the legal presentation, and other members of the committee.

Biltzke said that he had never been as hopeful of favorable CAB action on renewal of

Spacewalk Poses Problems That Baffle Science

CAPE KENNEDY, Fla. (AP) — Baffled by astronaut Richard F. Gordon's Jr.'s tiring spacewalk experience, project officials today continued to search for ways to overcome man's seeming inability to work in the weightless ocean of space for long periods.

If they cannot, it might reduce the number of tasks astronauts can perform while on the moon. Astronauts also would need to work outside their spaceship to perform a space rescue, erect space stations or repair a broken satellite.

"We've got to have some more experience," said Dr. Charles Berry, chief astronaut physician, "and really get the details of each of these experiences and try and put them all together in some coherent story."

"I can say very honestly that there are some things here that we continue to not understand."

"The basic problem appears to be that it is very, very hard work," agreed mission director William C. Schneider. "And, regardless of the suit, it is going to remain hard work."

Man has no basic stability in space, if he doesn't have something to latch on to. It's like lifting weights while treading water.

Ambulances To Suspend Service

ADRIAN (AP) — Three Adrian funeral homes notified the City Commission they will not provide ambulance service after Jan. 1. The homes, Braun, Everiss and Dunmore, said it was difficult to keep qualified personnel.

Vote On K-12

CHARLOTTE (AP) — Another vote will be held within six months in Eaton County on a K-12 school consolidation proposal. County voters rejected the plan 1,505-613 Monday.

Unlawful Meat Prober Named

GRAND RAPIDS (AP) — Grand juror Stuart Hoffus, named by four other Kent County Circuit judges to investigate alleged illegal meat processing in the county, says he plans to devote full time to the investigation.

"I don't know how much time I will devote weekly to the investigation, but tentative plans are that I will give up all my judicial duties," Hoffus said Tuesday.

Atty. Gen. Frank Kelley requested the grand jury Monday after five men were arrested on charges of conspiracy to violate state agriculture laws by selling illegally prepared meat for human consumption.

Hoffus, 51, was graduated from Colgate University in 1935 and the University of Michigan Law School in 1938.

He served as an FBI investigator from 1942 until 1945 when he returned to private law practice in Grand Rapids.

Hoffus was named Kent County prosecutor in 1954 and was re-elected to the post twice. He was elected easily to the Circuit Court bench in 1960 and is completing his first term.

Last month he announced his candidacy for a 10-year term and will be unopposed in the November election.

St. Ann's Altar Society Holds Fall Meeting

POWERS-SPALDING — The first fall meeting of St. Ann's Altar Society convened at 8 on Tuesday evening, Sept. 6. The newly installed president, Mrs. William Wheeler, opened the meeting with prayer. Twenty-six members were present.

September sanctuary duties were performed by the Carmella Circle. October sanctuary duties will be done by St. Mary's Circle.

Mrs. David Draz volunteered to send cards to the sick members of St. Ann's Society. Anyone who is available in helping with a class of slow pupils is asked to contact Rev. Walter Franczek.

Mrs. John Cory reported on the Lawn Social, held Aug. 7 in the parish hall. The society donated a sum of money toward the new steam table which was purchased for the parish hall.

Mrs. Walter Peterson reported on the two wedding breakfasts that the Sacred Heart Circle took as fund raising projects.

Discussion on the arrangements of the pamphlets in the vestibule of the church will be taken care of by the cleaning women and ordered by Father Franczek.

Mrs. John Schroeder gave a report on the Fall Festival and asked for aprons. Mrs. Marion Miketinas donated a roaster to the parish hall.

The president explained the meaning of a Spiritual Bouquet to the new members and the benefits derived from being a St. Ann member.

Lunch was served by the Carmella Circle. Mrs. Joseph Kirschner, and committee.

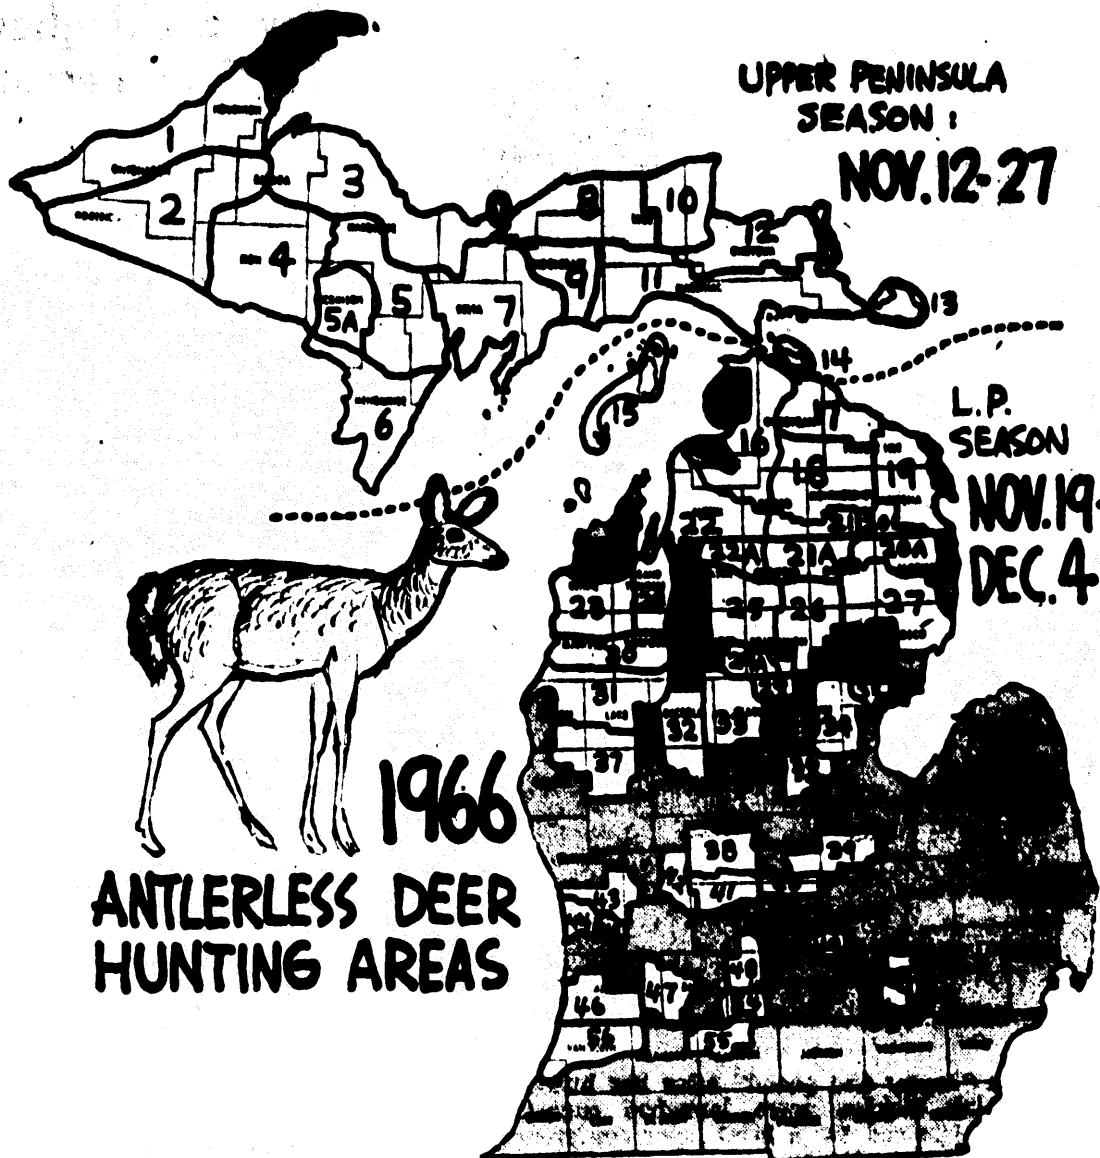

Newly elected Circle chairman are: Carmella, Mrs. Joseph Kirschner; Mother Cabrini, Mrs. Alfred LeBoeuf; Little Flower, Mrs. Earl St. John; Sacred Heart, Mrs. Walter Peterson; St. Mary's, Mrs. Harvey Bellefeuil; Immaculate Conception, Mrs. Lester Srnka.

Koreans Honor State Soldier

SEOUL (AP) — Four U.S. servicemen have received second annual best neighbor awards from the Seoul Junior Chamber of Commerce.

They were cited for their good deeds to promote welfare of Korean neighbors mostly during their off duty hours.

The award recipients included: Spec. 6 Larry J. Jackson of Cadillac, Mich., the 7th Medical Battalion 7th Division.

In a sharp cutback from last year, the Conservation Department is offering about 143,000 permits for antlerless deer hunting this fall in the 56 special areas shown above. Upon buying 1966 firearms or archery deer licenses, hunters can pick up permit application forms from the Department's Publications Room in Lansing or from some 4,000 dealers throughout the state. They have until September 30 to get their applications completed and postmarked for return mailing to the Department's Lansing office. Sportsmen are reminded that the permits do not guarantee access to private lands within the antlerless deer areas. They will still need the O.K. of owners to hunt on these lands. In applying, they should note that some antlerless deer areas in the northeastern part of the Lower Peninsula and those in southern Michigan are largely made up of private lands. Another point to remember is that Livingston County, which embraces areas 50-53, is closed to Sunday hunting. —Mich. Dept. of Conservation

Bankers To Meet On Wood Industry

EAGLE RIVER, Wis. — Focusing on the fiscal side of forestry and the production of wood, bankers from four states will convene at Trees for Tomorrow Camp, here Sept. 18-20, to determine the role they can play in a region where the sale of forest products totals more than \$3 billion annually. Banks from Minnesota, Michigan, Illinois, and Wisconsin will be represented.

Subject matter to be covered during the seminar includes case studies of loans made for buying forest lands and stumpage, woods equipment, and working capital for wood producers. Other factors to be discussed, in the region's fast

Children Hop Tiger For Home

BRICK TOWNSHIP, N.J. (AP) — A typical Brick Township school child finishes his last class in the afternoon, then grabs a tiger home from school. The child really takes a bus, but in order for him to identify the correct bus to take, pictures of animals have been placed in the windows of the vehicles.

"We don't want any mistakes if we can help it," School Supt. Henry E. Dux said after the opening of school Monday. "We tell the children what number their bus is but we also tell them to ride home in the rabbit bus. It works."

Hospital

Mrs. Edward Groleau, Rte. 1, Ensign, is a surgical patient at St. Francis Hospital. Her room is 361.

Classified Ads Cost Little But Do A Big Job

New Car Safety Rules Forecast

WASHINGTON (AP) — The new auto safety law requires the secretary of commerce to set safety standards for 1968 model cars by Jan. 31, 1967. Although the act itself does not spell out any standards, it is expected that the secretary will order most or all of the 36 safety standards already adopted by the General Services Administration for 1968-model cars to be bought by the government.

The first 17 of these standards will affect for government purchases of 1967 models, the remaining nine for 1968 models. Although none will be applicable to cars bought by the general public before 1968 models, most of the first 17 are being included by car makers as standard equipment on all 1967 models.

The requirements:

1. Anchorage for both lap and shoulder belts for certain seating places. This means seat belts for both front and back seats in passenger cars and for all seats in some buses such as school buses.
2. Construction of forward compartments so as to reduce the likelihood of head impact or leg or knee injury to a person wearing a lap seat belt.
3. Recessed instrument panel instruments and control devices.
4. Collapsible steering column and other energy-absorbing provisions in the steering control system.
5. Safety door latches and hinges.
6. Safety anchorage of seats, including adequate strength of seat adjusters and seat frame combinations and anchorage of folding seats.
7. Four-way flashers. A switch permitting all four turn signals to be turned on simultaneously in event the vehicle is standing, perhaps disabled.
8. Safety glass and glazing materials.
9. Hydraulic service brake systems, including a fallback system in event the regular brake system fails, known as dual braking systems.
10. Standard bumper heights.
11. A standard gear quadrant for vehicles equipped with automatic transmissions.
12. Windshield wipers and washers, including coverage of a larger area than has previously been standard.
13. Provision of glare reduction surfaces—anything the driver sees must not produce a glare that reduces vision.
14. Control of air pollution through compliance with the standard proposed by the Welfare Department Dec. 31, 1965, for equipment of all vehicles to control polluting emissions.
15. Standards for tire safety and safety rims. Government tire standards vary according to the proposed use of the vehicle and are set out in purchase contracts.
16. Back-up lights.
17. Rear view mirror or mirrors.
18. Window and door controls recessed or made of breakoff materials.
19. Recessed or padded ash trays and lighters.
20. Padded arm rests.
21. Padding of seat backs to protect rear seat passengers.
22. Head rests to protect front seat passengers from whiplash.
23. Side marker devices. Front and back turn signals must be visible from side of vehicle.
24. Rear window de-foggers.
25. Roll bars for light trucks and for jeep type vehicles with soft tops.
26. Fuel tanks and tank filler pipes constructed of nonrupturing or rupture-resistant materials.

Painting Class
A textile painting class was held recently at the home of Mrs. George Larson. It was attended by a large group. Llewellyn Larson, Tom Noon, Carl Terrian and Ed Kosow have returned to their home after attending the Minnesota State Fair.

Mr. and Mrs. Albert Haefgen and family of New Berlin, Wis., have returned to their home after visiting at the home of her mother, Mrs. Evelyn Vanderlin-den and Mr. and Mrs. Llewellyn Larson and family.

Some 400,000 new settlers cross California's borders each year. At present, some 10 million people — roughly one of every 10 United States residents — make their home in the Golden State.

First Methodist W.S.C.S. Circle Meetings Listed

The Circles of the Woman's Society of Christian Service of the First Methodist Church meeting dates have been announced.

The Ruth Circle will meet at the Farway Dinetto on Thursday, Sept. 15 at 2 p. m. with Mrs. Fredric Welch as hostess. Devotions will be led by Mrs. Floyd Bryers with Mrs. Welch in charge of the program.

The Harmony Circle meets at the home of Mrs. Charles Hammar, 1108 S. 8th Ave. Thursday, Sept. 15 at 2 p. m. Devotions will be in charge of Mrs. Katherine Williams with Miss Mabel Bowers program chairman.

Miriam-Abigail Circle meets Wednesday, Sept. 21 at 8 p. m. in Sawyer Hall Lounge. Co-hostess will be Mesdames Philip Hiney and Roger Jewell. Leader of devotions will be Mrs. John Hebert with Mesdames Konstantin Wipp and Harvey Pierson leaders of the new study book.

Dates of future activities include a rummage sale, Sept. 23, beginning at 1 p. m. Arts, Crafts and Antique Show, Thursday, Oct. 13 and Woman's Society Executive Board Monday, Sept. 19 at 8 p. m. in Sawyer Hall Lounge.

Births

KREBS — Mr. and Mrs. Harry Krebs of Waukesha, Wis. are the parents of a daughter, Kimberly Ann, weighing 8 pounds and 10 ounces born Sept. 13 at 5:15 p. m. The mother is the former Sandra LaValle of Escanaba and Kimberly is the first granddaughter of Mr. and Mrs. William LaValle of Ford River Road.

Julie Ann Butryn Wed To Gary Donald Gagne

Julie Ann Butryn of Bark River Rte. 2 became the bride of Gary Donald Gagne of Powers during a double ring ceremony performed Saturday, Sept. 10 at 12 noon at the Sacred Heart Church in Schaffer.

Bouquets of multi-colored gaudious adorned the altars of the church as the Rev. C. J. Mack heard the solemn exchange of vows.

Parents of the couple are Mr. and Mrs. Louis Butryn of Bark River Rte. 2, and Mr. and Mrs. Gary Gagne of Rte. 1, Powers.

The bride, given in marriage by her father, wore a floor length gown of chantilly lace over tulle with a fitted bodice, long sleeves and a scalloped neckline embroidered with iridescent sequins. Five tiers of lace formed the bouffant skirt ending in a short chapel train.

Her two tiered bouffant veil was caught by a queen's crown trimmed with seed pearls and crystals and she wore tiny pearl earrings. She carried a cascade arrangement of carnations and gladioli with trailing ivy foliage.

Lace, Crepe
Judy Motto of Hermansville, closest friend of the bride, was maid of honor and bridesmaids were Linda Lancour, Escanaba, Linda Barr of Iron Mountain, Sherrie DuBois of Milwaukee. They were attired in floor length gowns of lace and crepe styled with scoop necklines and elbow length sleeves accented by ruffled cuffs. Flowing lace back panels were attached to the back neckline by a self bow. Their matching gloves and sterling cross pendants were a gift of the bride.

Beaded crowns held their matching circular veils and they carried cascading arrange-

ments of yellow and bronze mums and pompons with accents of fruit and cones. The maid of honor wore a gold and maize gown and the bridesmaids wore green with ivory skirts.

Bestman for his cousin was John Gagne of Powers and groomsmen were Richard Butryn, Dennis Allen of Oconto and Frank Marsieck of Powers.

Performing ushering duties were Robert Butryn of Lansing and Francis Gagne of Powers.

For her daughter's wedding, Mrs. Butryn chose a deep mint crepe sheath dress with a lace top, matching accessories and a corsage of gold and bronze pompons. Mrs. Charles Butryn, grandmother of the bride wore a navy blue dress and was presented a corsage of pink baby mums. Mrs. Gagne selected a beige dress with brown accessories and a bronze corsage.

The wedding reception for 700 guests was held at Potvin's Fireside Room in Schaffer from 4 to 8 p. m. Assisting with duties were Mrs. Jerry Butryn, opening wedding gifts; Diane Bachleda, circulating the guest book; Susan Pragyaz, at the silver service and Mrs. Wes Wilby, cutting the wedding cake.

Following a wedding trip to Niagara Falls the newlyweds will make their home in Milwaukee.

The bride graduated from Holy Name High School and Bay de Noc Community College and is presently employed at Allan Bradley in Milwaukee.

Mr. Gagne graduated from Powers-Spalding High School and is also employed at Allen Bradley.

Out of town guests attended from Chicago, Milwaukee, Iron Mountain, Marquette, Lansing and surrounding areas.

MRS. JANE CONRAD described herself as "happy and proud" after her husband, astronaut Charles (Pete) Conrad and astronaut Dick Gordon were launched successfully into orbit on the Gemini 11 space mission. She appeared for a brief news conference Monday outside her home near the space center at Houston, Texas with her four sons, from left, Tommy, 9; Pete, 11; Chris, 5; and Andy, 7. (AP Wirephoto)

Social-Club

Mrs. Rachel Groos will present an organ recital for the residents of the Bishop Noa Home Thursday evening. This will be the first social event for the following new residents of the home, Peter Gendron, Alex Movalson, Mrs. F. Coon, J. W. McCombie, A. Meyer and Mr. and Mrs. Oscar Solberg.

The Afternoon Circle of Evangelical Covenant Church will meet Thursday at 2 p. m. at the church. Rev. James Swan will be the speaker. Mrs. George Lundeen will give a reading and hostesses are Mrs. Clarence Sundquist and Mrs. August Beckman. Friends are welcome.

Holy Name PC Meets Thursday
Holy Name High School Parents' Club begins another year of varied activities at 8 o'clock Thursday evening in the multi-purpose room of the high school. After introduction of new faculty members, Joseph Herriman, club president, will present the guest speaker, Robert Barron, personnel director of Mead Corporation. Mr. Barron's topic, "Careers and Career Preparation," will be slanted toward parents interested in student development.

Ladies of St. Thomas parish, Mrs. Tanguay, chairman, will serve refreshments. Club members are reminded to ready articles for the annual fall rummage sale scheduled for October.

P.E.O. Chapter Meets Thursday
Chapter Z. P. E. O. Sisterhood will open its activities for the new season Thursday, Sept. 15 with a 6:30 p. m. dinner at the home of Mrs. Karl Dickson on Portage Point.

A business meeting will follow the dinner with Mrs. Ralph Anderson in charge of the program.

4-H Club Holds Reorganization Meeting Thursday

The Gladstone Community 4-H Club will hold their winter reorganization meeting at the James T. Jones school at 7 p. m. Thursday. All children 10 years of age and older are eligible to enroll and must be accompanied by a parent. Projects will be discussed and will be offered where adult leadership is available. Enrollment fees will be accepted at this time. Any adult wishing to assist

with this work is welcome to attend the meeting and further information may be obtained by calling Mrs. James LaFleur at 428-9526 or Mrs. Robert Walker, 425-0971.

Hospital

Tom Creten, 15 year old son of Mr. and Mrs. Joseph Creten, N. 16th St., submitted to emergency surgery at St. Francis Hospital Sunday noon. He is in room 402.

More people get more news from newspapers than from all other sources combined.

GLADSTONE

Mr. and Mrs. Frank Nelson

Frank Nelsons Mark Anniversary Sunday

Mr. and Mrs. Frank Nelson, 22 N. 7th St., will observe their golden wedding anniversary at their home on Sunday. Mr. and Mrs. Nelson were married Sept. 13, 1916 at First Baptist Church with The Rev. Werner Nelson officiating, and Mrs. Frank Cole and the late John Nelson as attendants.

Mr. Nelson was born in Gladstone in 1894 and was employed by Harnischfeger Corporation as an inspector at the Crane Plant until his retirement 10 years ago.

Mrs. Nelson was born in Mackinaw City in 1898 and came to Gladstone at the age of six. Her hobbies are baking, sewing and crocheting. The couple have three sons, James, Harold and Gordon, and one daughter, Mrs. George (Marilyn) Anderson. Thirteen grandchildren and one great

grandson complete the family. All will be present for the occasion.

Mrs. Frank Nelson and Mrs. Gordon Nelson will make the wedding cake for the observation and yellow and gold will be used in carrying out the decorations. Mrs. Nelson plans to wear a black jersey dress with yellow accessories.

Candy Nelson will be in charge of the guest book and hostesses for the lunch will be Mrs. Gust Nelson, Mrs. Harold Nelson, Mrs. Gordon Nelson, Mrs. George Anderson, Mrs. Earl Cole, Mrs. Frank Cole, Mrs. Delbert Nelson and Mrs. Frank Steppich.

Church Events

Covenant Circles
The Covenant Women's Afternoon circle will meet Thursday at 2:30 p. m. at the Dr. Carl Olson residence, 619 Minneapolis Ave. Mrs. John Molin is the hostess.

The program will include devotions led by Mrs. E. R. Johnson, vocal solos by Mrs. Loren Anderson and the study of the 42nd Psalm.

Meeting Thursday
The Covenant Evening Circle will meet at the home of Mrs. Arthur Laughbaum, 1107 Wisconsin Ave., Thursday at 8 p. m. Miss Inez Nyberg and Mrs. Lloyd Nyberg are in charge of the program.

Lutheran Circles
First Lutheran Church Circles meeting this week are Joy Circles, Wednesday 8 p. m. at the home of Mrs. Bertha Aades, and Chariety Circle Thursday at 8 p. m. at the home of Mrs. Loyal Swenson. Both Circles will begin the study of the Gospel of John.

Women of Trinity
Women of Trinity Episcopal Church will hold a regular meeting at the church at 7:30 p. m. today.

Scholarship Quiz To Be On Nov. 8

LANSING (AP) — Examinations for next year's state scholarships will be held Nov. 5 at 123 centers across the state, the Michigan Department of Education announces.

Interested high school students and graduates must register with the testing center of their choice and pay a \$1.75 registration fee by Oct. 8.

Department spokesmen said they expected 5,600 students to share in next year's scholarships, ranging from \$80 to \$400.

Some 10,000 freshmen, sophomores and juniors are participating in the three-year-old program now, the Department said. When it reaches its fourth year, an estimated 15,000 will be attending college under the program.

Registration forms and information now available from all Michigan high schools and from all Michigan Higher Education Assistance Authority in Lansing.

Briefly Told

State Police issued traffic summonses Tuesday to Earl R. Way, Cornell, no registration or proof of insurance; Paul J. Pineau, Rte. 1, Rapid River, no registration plate on trailer.

Members of Gladstone High School Class of 1957 will meet at the home of Mrs. John Tackman, the former Nancy Grenfell, 622 Wisconsin Ave., at 8 p. m. Thursday to begin planning for their 10th year reunion.

MANISTIQUE

History Display Is Next Week

The Michigan Historical Commission Historymobile will visit Manistique Sept. 20-22 and will be open 10 a. m. to 6 p. m., at the high school grounds.

Valued at more than \$50,000 the unit was developed by 22 Michigan businesses and industries which contributed equipment and supplies, forming 19 colorful displays. The mobile museum was prepared in a co-operative effort by 14 Michigan museums.

The chronological displays include material on prehistoric man in Michigan, French exploration, the territorial period, migration, statehood, development of mineral resources, transportation by rail and water, Civil War role, the white pine era and agriculture development.

Others are on early Michigan industries, World War I, the 1920s and depression, Michigan's arsenal of democracy and the changing face of the state since World War II. The Schoolcraft County Historical Society is cooperating in bringing the unit. Mrs. J. J. Herbert is in charge of local arrangements.

Twilight Golf Play Ending; Malloy 'Champ'

Final play is scheduled this week in Twilight League action at Indian Lake Golf and Country Club. The 19th Holes lead with 113 points and are followed by Dubbers with 102, Pros with 99, Drivers with 98.

Bud Malloy has captured the men's tournament crown, winning the tourney for the third year. He defeated John Kelly Jr. The defending champion, Ossie Smits finished third.

Whiffers and Divot Diggers entertain this week.

School Fan Buses Okayed

Bus transportation and other matters brought a delegation of 50 to the Manistique board of education meeting Monday night.

In response to a question whether the school would have children walk 1 1/2 miles, the group was advised that changes were contemplated in accord with state statute limiting stops to four per mile, so Thompson students would not get home too late. Most of those present were from Manistique and Hiawatha townships.

A resolution was passed to permit the district to receive and send tuition students. Some Upper Hiawatha students attend Munising school and some Seney students attend Germfask elementary classes. Approval was given on an experimental basis to provide fan buses to athletic games within a radius of 75 miles.

Bids were received on motor oil, gasoline, coal, fuel oil and fencing and were referred to the business manager for analysis and recommendation.

Financial reports were received on township districts being incorporated in the Manistique school district following the reorganization vote. It was reported audits are nearing completion.

A motion was made to extend contracts to three teachers, Mrs. Margaret Denman for Doyle first and second grades; Mrs. Shirley Lawrence for Germfask kindergarten half-days and Mrs. Nedra Dissinger for Fairview fifth and sixth grades.

Also approved was hiring Mrs. Jessie Conlon as Germfask cook and Mrs. Helen Johnson as part-time secretary for Richard Bonifas in the adult school program.

Retaining Thrun and Thrun of Miller, Canfield, Paddock and Stone as legal counsel was approved. The firm quoted \$100

Council Accepts Truck Bids

The Manistique City Council Monday night accepted bids on two trucks, confirmed a change in bid acceptance on an ambulance vehicle and deferred for more information decision on a truck with packer.

The bids accepted were from Curran Chevrolet, at \$4717.18 for a two-ton truck, and \$3,783.41 for a heavy duty blade truck. The bids were low of three received.

The Chevrolet Carryall ordered for ambulance service will not be produced until next spring, so an International Harvester unit from Walter Linderoth & Son was accepted, following rescinding of the previous order. The Linderoth bid was \$2495 with trade-in.

The Council instructed that \$25 be refunded to Gerald Callahan, following a letter from him to the Council in which he stated he had sent the fee in July for a dance permit and had not received one.

Norman Oliver asked if the city intended to enter trailer camp business and was advised by Mayor Thor Reque it did not. He also asked a check of legality of sale of air rifles to children who do not have written permission from their parents.

per year for general legal counsel, \$100 per year for general counsel on negotiation questions, and election fees varying according to complexity of the issue.

The board approved Lowell Cooper's serving on the U.P. Educational Planning Council, and advertising for substitute teachers with minimum requirement 60 hours education from an approved institution.

On another question, it was noted that parents are responsible for transporting children released from school for religion instruction in the city may ride buses to the classes if there is room.

Let a gas dryer do your ironing.

Your gas dryer does your ironing for you. The new permanent press clothing pops out of a gas dryer looking like it just came back from the cleaners. All wrinkles are gone. Creases are razor-sharp and neatly in place. Clothes are ready to wear. You'll be buying more and more permanent press clothing and you'll love the job a gas dryer does.

And only gas dries clothes so quickly and economically. Less than 2¢ a load. 10 minutes faster, too. Maintenance cost? Forget it! An independent survey shows the average cost of maintaining a gas dryer is less than 20 cents a year.

You need no down payment, and easy terms are yours for the asking. Installation is free.

Now is the best possible time to buy. Dealers have special savings for you. And with gas you keep on saving. Month after month. Year after year.

Isn't it time you bought a gas dryer?

MICHIGAN CONSOLIDATED GAS COMPANY

In This Corner

with Ray Crandell

Stephenson, Holy Name's Great Northern Conference football for here Saturday afternoon, displayed vast improvement in its second start against Gwinn last weekend. . . . Coach John LaPointe's Eagles were grounded by Marinette Catholic Central in their season opener, 55-0. . . . Against Gwinn they bowed, 13-6, but came on strong in the second half in which they threw the Model Towners for a minus 32 yards rushing. . . . Mark Dougovito scored Stephenson's touchdown on an eight yard sweep and was the leading ground gainer in the game with 61 yards.

You're a high school football coach and your team has a 20-7 lead in the third quarter. . . . Do you mentally chalk up the victory and send in your scrubs? . . . Not if you are Gene Melchiori of Norway. . . . His Knights had a 20-7 lead over Stambaugh under these very circumstances yet they were whipped 40-22 at the final gun. . . . Coach Don McDonald's Hilltoppers rallied with a TD late in the third period and exploded for four more in the fourth.

Baraga, a school that was reported dropping football this fall, should have. . . . The Vikings were blasted, 60-0, by Ontonagon in their season opener and then took a 43-0 licking from Lake Linden in their second start. . . . Lake Linden's first team played only in the opening minutes of the first period.

The Northern Michigan Wildcats, off to an impressive start under Coach Rollie Detach, dominated all phases of the game in their 21-0 opening victory over State College of Iowa. . . . The Wildcats ripped off 214 yards rushing and added 97 through the air while the Iowa team was limited to 59 yards in all.

Coach Bill Earle's defending Great Lakes Conference champs at Munising rallied from a 13-6 halftime deficit to wallop Marquette by a 32-13 margin. . . . All five Munising touchdowns came on passes. . . . Darryll Cox hit Dan Kriekard with two, Tom Gattis tossed to Mike McNally for one and Kriekard and Cox intercepted Marquette aeriels to score two more.

Ironwood used the long run effectively to clip Iron Mountain, 20-13, in an inter-sectional clash last weekend. . . . Jan Currier sprinted 77 yards to score in the second quarter and Steve Blining topped it with an 87 yard jaunt in the fourth. . . . Currier had a big day on the ground with 188 yards in 14 carries. . . . The victory extended Ironwood's win string to 10 games, second only to St. Ignace's 14 in a row.

Crystal Falls, defending Upper Peninsula champion, copped its first decision of the new season by nipping Iron River, 12-6. . . . The Trojans took to the air lanes to snatch the victory as Dwayne Anderson hooked up with Dave Sundquist on an 87 yard pass play to break a 6-6 deadlock in the fourth quarter.

Miners Top First Grid Poll

The Negaunee Miners were a solid choice for first place in the initial Upper Peninsula Sportswriters Association weekly football poll.

Coach Lodie Morris' team piled up 122 points, far ahead of runnerup Ironwood with 92. Eight of the 14 writers from Upper Peninsula daily and weekly newspapers rated Negaunee as the No. 1 team. Ironwood drew three first place ballots.

Negaunee earned its No. 1 spot in the poll by defeating Sault Ste. Marie, 21-13, and

Smith Betters Highland Par

Jack Smith set the pace at the Highland golf club Tuesday as he fired a 3-under par 33 in Twilight League play. Jim Douglas also finished below par with a 35.

Other low scores for the evening were Bob Monson, Al Davidson and Jerry Martin 37, Dave Friets 38, Jim Schultz, Barney Barnhart, Leo Knauf and Ed McCarthy 39, and Bob Heymen and Mel Manske 40.

With only two weeks remaining in league play, the Baurners appear almost a cinch to take the top spot as they hold an 11½ point lead. The battle-royal is being waged in the next four pay-off positions where the majority of the teams remain only a few points apart.

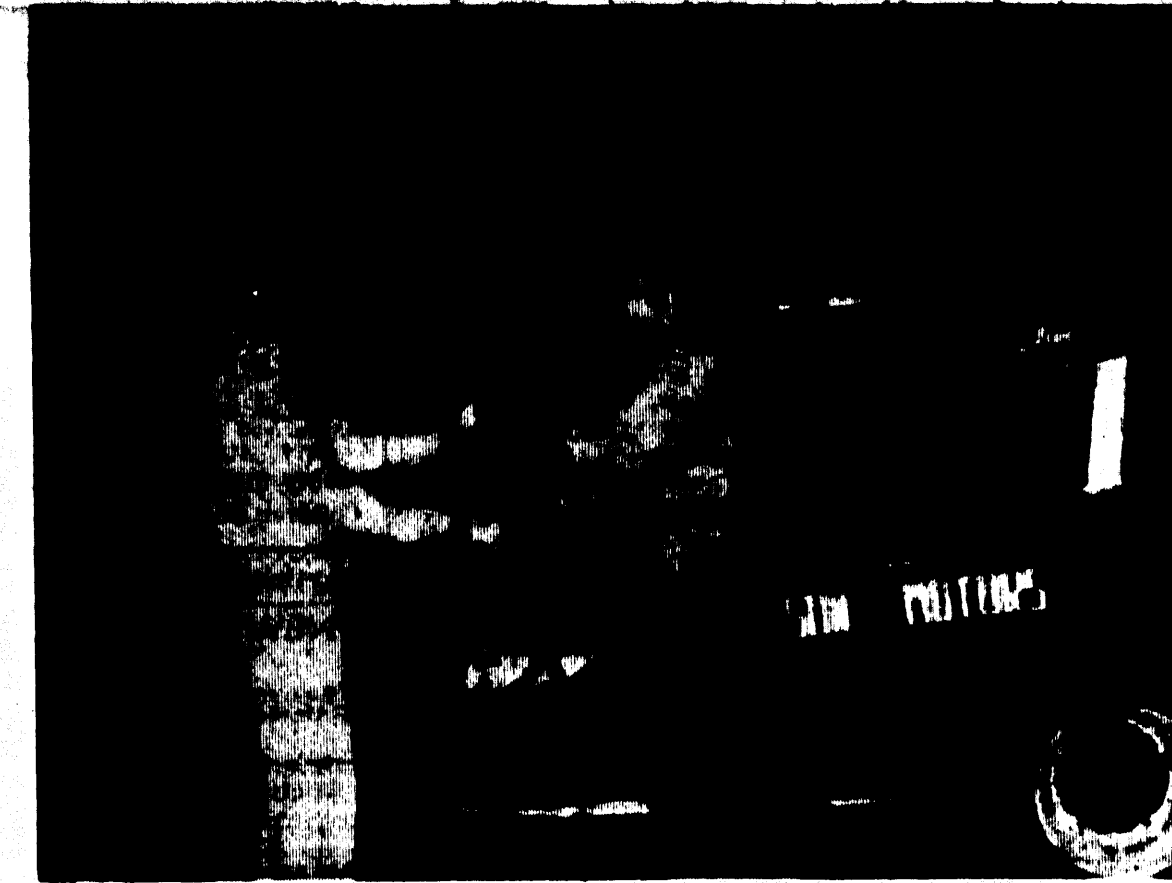

Team standings: Baurners 100½, Turf Kings 89, Has Beens 87, Divot Diggers 86, W. R.'s 82, Long Knockers 80, Hackers, Got Yas and Super Valu 76½, Big Stickers 75½, Wertz's Watusis 73, Hi Flyers 72½, Rum Duns 71, Barney's Beavers 67, Hot Shots 65½, Doug's Dubbers 61½, Earl-E birds 58½, and Team No. 18 33½.

Knee Surgery For Tom Stade

GLADSTONE—Coach Don Protenhauer announced today that Tom Stade, outstanding Gladstone High School half-back, will undergo surgery for a knee injury Thursday.

Stade, a 5 foot 11 inch, 165 pound senior speedster, was one of the leading prep backs in the Upper Peninsula as a junior last season.

Stade was injured in Gladstone's opening game against Gwinn. Protenhauer stated that Stade may be available for the last few games of the season, depending on how he recovers from the operation, according to his doctor.

Packers Tackle Cleveland Next

GREEN BAY — The World Champion Green Bay Packers travel to Cleveland Sunday to face the defending Eastern Division Browns in a re-match of last January's title game, won by the Packers 23-12. Both are 1-0 this year in regular season competition, sporting wins over Baltimore and Washington. Kickoff will be at 1:30.

It will be virtually the same Packer starting lineup that defeated the Browns for the crown last year, with the possible exceptions at center and tight end where minor injuries have prohibited Bill Anderson and Ken Bowman from seeing duty. Both are since fit, but Marv Fleming and Bill Curry won't be budged from the starting line-up.

On defense, the Packers have taken up where they left off last January with Bob Jeter at the right corner spot. Last year Bob filled in for Doug Hart when Hart suffered an injury in the first series of the title game and has been there ever since. Last week he picked off a John Unitas pass and rambled 46 yards for the score.

Last year in the championship game Jeter limited Paul Warfield to just two receptions.

Lee Roy Caffey intercepted the fourth pass of his career Saturday night and rambled 52 yards for a score in the second period to put the Packers in the lead. In his career, he has returned interceptions 87, 44 and 52 yards for touchdowns.

Veteran running backs Paul Hornung and Jim Taylor have served notice that they are fit as ever this year, grinding out 110 yards on the ground and nabbing 4 passes for an additional 37 yards. In all, they either carried the ball or were receivers in 37 of Green Bay's 55 offensive plays.

In addition to calling a near-perfect game, quarterback Bart Starr completed 14 out of 19 passes for a net of 137 yards and gained another 36 yards in 3 rushing attempts, including one 8 yard scramble for a touchdown.

Too Many Tiger Belts Spoil Kaat's Bid For 24th Victory Of Year

By The Associated Press

Jim Kaat, who leads the majors in home runs given up by a 23-game winner, has finally had cause to regret it.

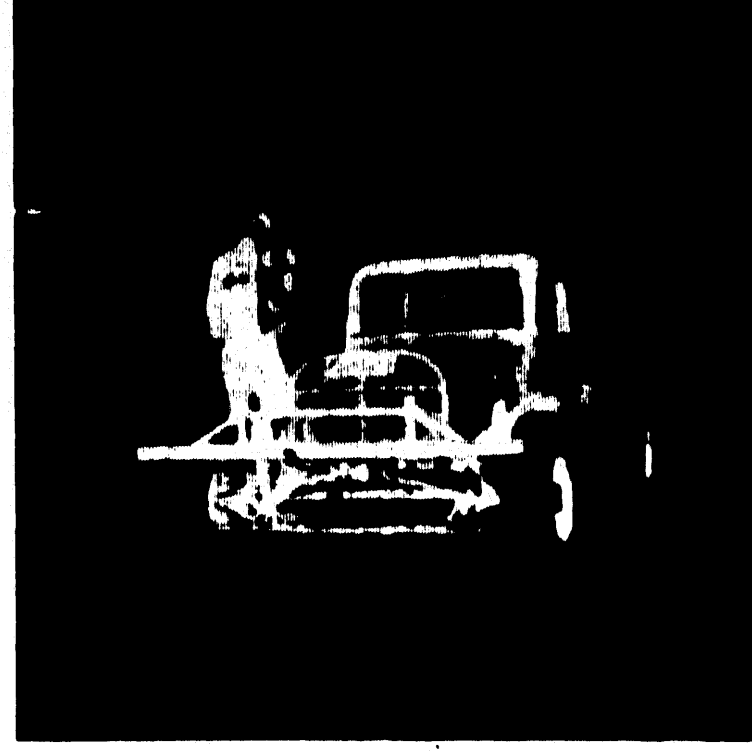

Of course, there's only one other pitcher with 23 victories around — fellow name of Koufax — and Kaat, who had won eight games in a row despite opposition homers, was done in by a couple Tuesday and missed a golden opportunity to pass Sandy in most victories.

A three-run homer by Willie Horton and a solo by Bill Freehan gave Detroit just enough runs to post a 6-5 triumph over Minnesota and deny Kaat his 24th victory and ninth in a row.

In his last four outings, the Minnesota southpaw has surrendered six homers, but not till Tuesday did it seem to matter. The Twins always came back with at least enough runs to win, and often a lot more than enough.

They almost did it again Tuesday, too. Minnesota got three unearned runs in the second and, after Detroit had taken a 6-3 lead, Zoilo Versalles hit a home run to bring Minnesota within a run.

In all, Kaat has given up 22 home runs this season, as against 17 allowed by Koufax. Jim was nicked for a first-inning run by the Tigers and the retired 18 men in a row before Jake Wood singled in the sixth inning. Al Kaline then walked

ALLAN YELLE of Marquette is presented with a trophy as the driver showing the most sportsmanship qualities during the season of stock car racing sponsored by the Upper Peninsula Racing Association at the fairgrounds track. The presentation was made at last Saturday's regular racing finale by LeRoy Sovey, flagman. The bottom picture shows Jerry Richer of Schafer in the modified stock car which he will drive in the all-modified special racing event Sunday night, featuring the best drivers from Milwaukee and Canadian Soo. (Photos Courtesy William LaMarch)

Earns AP Honor

Roland To Get Starting Role With St. Louis

NEW YORK (AP) — Johnny Roland wasn't even a starter last Sunday when the St. Louis Cardinals played the Philadelphia Eagles. He didn't play in the first half, except to run back a punt for 11 yards.

But when Charley Winner, new Cardinal coach, cut him loose in the second half, he helped St. Louis turn a 10-3 deficit into a 16-13 victory. Johnny will start from now on.

Because of his improved performance under pressure, The Associated Press has selected the Missouri rookie halfback as the Offensive Player of the Week in the National Football League.

Roland ran for first downs three times after he entered the game. He rushed eight times for 53 yards, caught two passes for 40 yards, returned two kickoffs for 50 yards and brought back two punts for 16 yards. For his first day on the job—even if it was a half day—he contributed 159 yards to total offense.

"I thought about starting Roland earlier in the week," Winner said. "But I decided to wait with experience. I went to him in the second half because he's an opportunist. He reminds me of Paul Hornung in that he makes the most of what he has."

Roland, who played defense last year at Missouri to plug a need, has become a prime favorite with Card fans. He grabbed a deflected pass for a 37-yard gainer on a third-and-33 situation. The catch after Joe Scarpati of Philadelphia and Sonny Randle of the Cards collided and both touched the ball, set up the go-ahead TD for a 13-10 lead, in the final period.

Jim Bakken's 27-yard field goal finally won the game in the last five seconds.

Bart Starr of Green Bay scored a touchdown on an improvised eight-yard run out of the passing pocket and mixed his plays well in a 24-3 romp over Baltimore.

Starr completed 14 of 19 for 138 yards and also ran three times for 36 yards. Jim Taylor also sparked for Green Bay on offense by rushing 16 times for 76 yards.

Bill Brown of Minnesota took over after the running title vacated by Jim Brown when he carried 16 times for 99 yards in the Vikings' 20-20 tie with San Francisco. Fred Cox tied it with a 31-yard field goal into the wind with six seconds to go.

Homer Jones, the New York Giants' fleet spread end, scored

Lou Johnson Repeater; Dodgers Maintain Lead In Torrid NL Scramble

By The Associated Press

It could be the World Series for the Los Angeles Dodgers and City Hall for Lou Johnson all over again this year.

The two seem to go together, and the Dodgers couldn't be more pleased.

They maintained their 1½ game lead in the torrid National League pennant race Tuesday night by crushing the New York Mets 6-3 behind Johnson's slugging.

The left fielder clouted two homers and drove in four runs, surpassing last year's marks that helped direct him to City Hall in Los Angeles where he

received a special citation for his unexpected part in the Dodgers' successful fight for the pennant.

Johnson was called up to the Dodgers' 15th team in an emergency last season to fill the left field spot suddenly left vacant when Tommy Davis broke his right ankle May 1.

The Dodgers didn't really expect much from Johnson, but he did more than most of their hitters in driving them to the Series.

He batted only .259, but many of his hits were clutch hits and he drove in 58 runs and tied Jim Lefebvre for the team lead in homers with 12.

"If it hadn't been for the job Johnson did, we might not be here today," Sandy Koufax said after Los Angeles won the pennant.

But this year Johnson is doing even better. His performance against the Mets raised his average to .269 and vaulted him ahead of his 1965 slugging totals. He now has socked 13 homers and driven in 61 runs.

He is second in both departments only to Lefebvre, who has belted 23 homers and knocked in 72 runs.

Los Angeles' two competitors also won Tuesday night, Pittsburgh remaining 1½ games back by walloping Houston 9-3 and San Francisco staying 2½ out with a 7-2 triumph over Philadelphia. In other games, St. Louis edged Cincinnati 3-2 and Atlanta trounced Chicago 10-2.

In the American League, Detroit nipped Minnesota 6-5, Boston smashed Chicago 10-1, Kansas City trimmed Cleveland 3-1 in 15 innings and Washington edged New York 3-2. Rain washed out California at Baltimore.

Johnson's first homer, in the fourth inning, tied the Mets 2-2, and his second, a three-run blast, climaxed a five-run eruption in the fifth. Lefebvre's two-run single snapped the tie earlier in the inning. Claude Osteen, with relief help from Bob Miller, gained his 16th victory against 11 defeats.

The Pirates unloaded a 16-hit attack on Houston, with Willie Stargell driving in four runs with a sacrifice fly and his 30th homer. Gene Alley stroked four hits and Matty Alou three while Roberto Clemente drove in two runs with a single and a double.

San Francisco's Juan Mari-chal scattered seven hits for his 22nd victory against six defeats. Tito Fuentes lashed a key two-run double in the sixth inning, and Willie McCovey socked his 29th homer, a two-run shot, in the eighth.

Curt Flood's two-run, eighth-inning double boosted St. Louis past Cincinnati. The blow wiped out a 2-1 lead Cincinnati had taken on Deron Johnson's run-scoring double in the fourth and his homer in the seventh.

Hank Aaron drove in three runs with his 38th and 39th homers, leading an Atlanta attack against Chicago that also included homers by Rico Carty and Felipe Alou.

Hustlers Win Golf Honors

The Hustlers won the second half championship in the Escanaba Country Club Twilight League by a slim half-point margin over the Pelters, 44½ to 44.

Next week's pairings will match the first half winners against the second half winners for the season championship.

Elmer Swanson shot a 36 for individual honors Tuesday with Bill Eis Jr., turning in a 37, Dave Erickson and Ed Gravelle 38, Dave Andrews, Harry Hogan and Cliff Dawson 39.

Closest to the pin on No. 7 were Gump Olson and Dick Craig.

Standings: The Hustlers 44½, Pelters 44, Toronados 43, Ice Boxes 41, Pedagogues 41, Paper Makers 40½, Hogan's Hustlers 38½, 19th Holes 38, Mead Office 37, Pea Soups 35½, Masters 35½, Eight Balls 34½, Hush Puppies 31, Don Juans 29, Burt's Boys 28½, Lurch's 26, Gravel Gerties 22½, Duffers 19½.

Claasen Goes With Spartans In Opener

NEW YORK (AP) — The June bugs still are buzzing around the garden, but here it is the start of the football season.

Here are this week's winners: Louisiana State over South Carolina. When this one was scheduled, it was just an ordinary game but now that Paul Dietzel, onetime LSU coach, is boss of the Carolinians, it has taken on the hue of a grudge match.

Southern California over Texas. Trojans patched all their holes with junior college transfers, some of whom are potential super stars. Texas defense built around Diron Talbert.

Michigan State over North Carolina State. Two-thirds of the Spartans' Rose Bowl squad returns, including Bob Apisa, the Hawaiian Hummer.

Nebraska over Texas Christian. Once again, Nebraska has everything. Tackle Bob Picken is a svelte 274-pounder.

UCLA over Pittsburgh. The Paulthurs from the East have neither teeth nor claws while the Bruins have Gary Beban,

who rewrote the book last year as a sophomore quarterback.

Arkansas over Oklahoma State: Oklahoma State will be strong on defense while the Porks are strong on offense — and offense.

Purdue over Ohio University: Bob Griese still directs the Boll-maker attack.

Georgia over Mississippi State: The Georgians missed the Southeastern Conference title by two plays last year. This year they will be even better.

Illinois over Southern Methodist: The Illini are rated one of the best in the B. G. Ten. Jerry Levis, a flanker for the Mustangs, rated one of the country's best sophomores.

Navy over Boston College: Both teams have giant lines, but Navy also has solved its quarterback problems in the person of John Cartwright.

Missouri over Minnesota: Graduation losses were less at Missouri.

Washington State over California: A squeaker.

Bump Undecided On UM Starters

ANN ARBOR (AP) — University of Michigan Football Coach Bump Elliott has decided to give both veteran Jim Detwiler and Ernie Sharpe a share of the left halfback position in the opener with Oregon State Saturday.

Elliott is expected to decide Wednesday which of the two will start.

Tuesday's practice was mostly formation work and heavy conditioning drills. The Wolverines were to continue drills today and then are expected to taper off for the two days before the game.

There still has been no decision on who will start in the tackle positions. The choices are Dave Porter and Dick Williams or their backups Bob Mickle and Bill Hardy.

The Oregon State team will arrive in Ann Arbor about noon Friday and spend the afternoon practicing in Michigan Stadium.

Tiger Tales

DETROIT (AP) — Willie Horton almost didn't make it to the ball park Tuesday night because of an accident on the freeway. Horton explained that he was following a truck loaded with steel when a piece flew off the back of the truck and headed his way.

"I saw it coming and figured it was going to bounce on the windshield," Horton said. "So I swerved to avoid it but it caught the two rear tires. I just pulled over and left the car for the garage to pick up."

Horton also had some ideas about a couple of the pitchers with the Twins, namely Jim Kaat and Jim Grant.

"I think Kaat is a better pitcher this year because he mixes his pitches more," he said. "I know he's a lot different pitcher than he was last year—and he was tough then."

Kaat, 18-11 for the American League champions in 1965, now is 23-10. Grant, the league leader with a 21-7 record last season, is 13-11.

"Grant hasn't changed any," Horton continued. "His problem is that he makes a mistake and it costs him a game. When you are going good, you can get away with some mistakes, when you're not you lose."

Jim Northrup and Dick Tracewski were kidding about their being inserted into the lineup as defensive measures in the ninth inning. Northrup replaced Al Kaline in right and Tracewski went in at second for Jake Wood.

Northrup made a running catch of Ted Uhlaender's sinking liner for the first out of the inning.

"You see how important we are," Northrup chided. "Why they even put Tracewski, — batting average .187, in the cleanup spot."

Manager Frank Skaff said he would have sent anyone in on Kaline's line drive to left in the eighth which scored Wood.

"I know it was hit hard and right at the man but it was deep enough," Skaff said. "I could have scored."

Plan To Keep A Cow? Cost High

By PHIL BROWN
EAST LANSING (AP) — Any one thinking of keeping a cow in the back yard for a handy milk supply might be interested in how much the dairy farmer has to invest to keep a cow in his back yard.

Michigan State University researchers recently came up with a figure of \$2,340 for 1965. They studied farms which participate in MSU's Telford record-keeping project.

You probably could cut that figure to about \$1,200 right away if your back yard is big enough. The researchers found farm land accounted for nearly one-half of the total investment per cow.

But then there is the matter of buildings, silos, water feed storage space, milking and

other equipment, plus power costs.

You could skip some equipment and power costs — but you'd end up working quite a bit harder yourself.

The figures MSU came up with were averages. Actually, there is quite a bit of difference from farm to farm in the amount invested per cow.

The amount of investment can greatly influence efficiency, operating costs and returns, said C.R. (Ray) Hoglund, an agricultural economist.

"Total investments in buildings, feed storage and livestock equipment may range from as low as \$300 to as high as \$1,000 per cow," he said. "The lower figures are for those farmers with older stanchion barns which have few labor-saving features."

"We are concerned when these investments are \$800 or more per cow," Hoglund added. "Buildings, storage and equipment for an efficient and new dairy setup can be built for \$450 to \$600 per cow. These would be for units of 60 or more cows."

When considering investments in buildings, milking and manure systems, Hoglund said, dairy men must consider the effect of the investments on labor efficiency.

"Up to a point, these extra investments are more than paid in full, if they result in higher output per man or a reduced labor force," he said.

But, he added, "you cannot hire or get rid of half a man, so the investments need to be tied in with a 'chunk' of cows which make efficient use of the buildings and equipment."

Hoglund expects to see more Michigan farmers building completely covered barns within which cows are housed, fed and milked.

For an 80-cow system, these have an original investment of about \$20 to \$25 more per cow, and annual costs of \$2 to \$3 more per cow than conventional loose-housing systems, but also have labor saving advantages in cleaning manure and in feeding, he said.

If you're still thinking of a cow in the back yard, don't forget the cost of the cow — probably upwards of \$300. And those investment figures don't include feed — just the place to store it.

That cow, if it's a good one, probably would produce more than 1,100 gallons a year for you.

Possibly you could sell some of it, as commercial dairy farmers do.

But MSU figures that for all their efforts, they have a labor income of about 49 cents an hour on the average.

Mr. Ararat, Biblical resting place of Noah's Ark, is a volcano on the boundary of Iran and Turkey in southwestern Asia.

AP CARTOONIST Joe Cunningham has depicted the latest attempt by man to do something about the weather. U.S. scientists who are hoping to salt a hurricane's tail with silver iodide have plenty of precedence extending back into the mists of time. (AP Wirephoto)

Changing Weather Is Ancient Aim Of Man

By CARLOS ESCUDERO
NEW YORK (AP) — People have been trying to do something about the weather for a long, long time.

Undeterred by the continuing prevalence of hurricanes, floods, droughts, unmanageable snowfall and heat waves, they are still trying.

American scientists who hope to salt a hurricane's tail with silver iodide may fairly claim precedent extending back into the mists of time.

If Greek mythology is to be credited, one weather-warrior who really had it made was Aeolus, the god of the winds. Aeolus gave Ulysses winds of all kinds neatly tied up in a leather bag to help his boats along on the Odyssey.

Hurricane Namesake

More recently, the Aborigines of the Greater Antilles and the Bahamas — they were called Arawaks — had a wind god named Hurukan, from which came the word hurricane.

The Arawaks believed the hurricanes to be Hurukan's children, and that if he were properly propitiated he would keep the kids under control.

Finnish wizards of old used to sell wind to hardy mariners. The wind was tied up in three knots. Let go the first one and

a nice, moderate wind came up. Release the second and there was half a gale. And mind the third: a hurricane.

The tale is told of making wind in New Guinea by striking a wind-stone with a stick—once over lightly for a friendly breeze, a hard rap for a real blow.

Scots Had Witches
Scottish witches raised the wind by dipping a rag in water and beating it a magical three times on a stone, with a chant:

"I know this rag upon this stone
To raise the wind in the di-
pellis name."

"It shall not lie till I please
again."

Natives of Tierra Del Fuego — on the tip of South America — throw, or used to throw, sea shells against the wind to make it stop. From the looks of the country, this technique could stand improvement. The wind blows so much in Tierra Del Fuego the trees grow on their knees.

Liquor Vote

OWOSSO (AP) — Voters in Caledonia Township, east of Owosso, will decide Nov. 8 whether to allow sale of liquor by the glass in the township.

Auto Building Tempo Raised

DETROIT (AP) — U.S. auto firms, spurred by the public attention their new 1967 cars are getting at preview time, stepped up the tempo of auto production this week.

An estimated 112,247 of the new '67's rolled off assembly lines last week, a work time shortened by the Labor Day holiday, and that mark was expected to be surpassed by a wide margin this week.

A new name joined the production parade last week when Lincoln-Mercury division built its first 567 Cougars. Chevrolet got started a week earlier on building its new Camaro and some 5,900 of them have been built already. These are the two cars which will challenge Ford's Mustang.

All the auto companies except Ford were ahead of their totals to date a year ago for the new models. General Motors had built nearly 85,000 of the '67's by last weekend compared with the mere 1,711 of the '66's it had built at this point a year earlier when GM got a later start on new model production.

American Motors added a second shift to its Kenosha, Wis., plant last week as it set about building an ample supply of the new '67's before model introduction time.

Michigan Week Observance Is Planned At NMU

Michigan Week officials representing the 27 northernmost counties of the state gathered at Northern Michigan University, Marquette on Saturday, to plan for the 1967 observance.

Dr. Edgar L. Harden, president of Northern and the 1967 general chairman of Michigan Week, charged group with involving all the people of the state in learning, showing, selling and building Michigan.

Some state committees direct segments of the program, others represent statewide organizations and interests, explained Keith Forsberg, deputy general chairman.

The annual Michigan Week program is designed to create a cooperative effort which will sell Michigan outside the state and build a greater Michigan.

Those present included: Dean Rhoads, Region 2 chairman, Manistique.

Open Route 89

MONTPELIER, Vt. (AP) — American and Canadian officials will celebrate the opening of Interstate Route 89 at the Border Sept. 19.

Federal, state and local officials will participate in a ribbon-cutting and shrub-planting ceremony.

Wisconsin Michigan Seeks Right To Build Nuclear Power Plant

WASHINGTON (AP) — Receipt of an application from Wisconsin Power Co., Milwaukee, for authority to build and operate a \$61 million nuclear power plant was announced by the Atomic Energy Commission.

The site for the plant is 1,200 acres on the west shore of Lake Michigan in the town of Two Creeks, about 30 miles southeast of Green Bay, Wis.

To be known as Point Beach Nuclear Plant, it would have an initial net electrical power output of 454,000 kilowatts. It would use a closed-cycle pressurized water reactor.

Westinghouse Electric Corp. will design and construct the plant. Bechtel Corp. has been selected as engineer-constructor. Estimated total cost of the plant is \$61,200,000. The first fuel

loading is estimated to cost about \$15 million. Estimated completion date for the project is June 30, 1970.

Isabella

The Isabella Community Auction will be held at Isabella hall Saturday, Sept. 17, beginning at 1 p.m. The public is invited. There will be many items too numerous to mention. Refreshments will be served. All donations are asked to be at the hall early.

Mr. and Mrs. Vernon Peterson have returned from Port Huron where they visited Mr. and Mrs. Robert Hall and at Alpena where they visited at the home of Mr. and Mrs. Garden Peterson.

Neighbors and friends gathered at the home of Mrs. O'Connor sister, Mrs. Adeline Segerstrom, Thursday evening, the occasion being Mrs. O'Connor's birthday. She was presented many lovely gifts and a decorated cake made by her sister.

Mr. and Mrs. Ted Sundin attended the wedding of Mr. Sundin's nephew Blaine Legault and Kathy Helling at Clintonville.

Dept. Head

MARQUETTE — Appointment of Dr. Gerald D. Jacobs, associate professor of chemistry, as acting head of Northern Michigan University's chemistry department, is announced by Dr. Edgar L. Harden, president. Before coming to Northern in 1964, Dr. Jacobs was associated with Union Carbide Chemicals Co. at its technical center in Charleston, W. Va.

Center Director

MARQUETTE (AP) — Dr. Bert Jones, director of Northern Michigan University's Community Services Department, has become director of the women's Job Corps Center at the university. Jones wrote the proposal for establishment of the center and also directed an 18-week Vista training center program on the campus last year.
